v. 18-118

# Cole Marine Library

The late Clinton L. Cole, '00, was a leading evaluation engineer in Connecticut. He was known for his ability and integrity. He was also known for his interest in marine subjects on which he collected a library of some 600 volumes, and, in addition, the files of several important nautical magazines.

Always having a keen interest in the University, it was his desire that his Alma Mater should have his library. In accordance with his request, the entire collection has been presented to the University and is to be known as the Clinton Cole Marine Library. It contains several early and somewhat rare publications as well as many other valuable books. This collection is one of the largest single private gifts of its kind the University has ever received.

The hope has been expressed that a Museum of Maine History might be established on the campus. This would provide an opportunity to preserve carefully and display attractively such collections as the one just received, and official documents, books, models and any other material relating to the history of the State of Maine. Some thought has been given to this possibility in the plans of the University.

Alumni and friends who are interested in providing for the future of the University by a gift or a bequest are invited to write to the President of the University. A statement of the more important needs will gladly be furnished to any who desire such information.

# CHEVROLET

*Styled to Steal the Show! . . . You know what happens when a beautiful and talented star appears on the stage. She steals the show! And that is what the new Chevrolet with Diamond Crown Speedline Styling has done on the motor car stage this year. Outstandingly beautiful, styled to express youth and zest, it has won enthusiastic preference as the smartest car in its price range.*

### The Test of an Investment

- ✓ Security Offered
- ✓ Financial Returns
- ✓ Future Possibilities

You consider all these points in making a money investment. It's even more important to consider them when investing years of effort to build a career.

Because of the way life underwriting "checks" on all three counts, increasing numbers of college graduates are entering this business. Those selected by The Penn Mutual Life Insurance Company can start their careers on a fixed compensation basis, instead of a commission basis, if they wish.

Send for booklet: "Insurance Careers for College Graduates."

### GRADUATES' MEMORY CONTEST

Score one point for every correct answer. A graduate ten years out of college should get ten answers right. Answers appear on Page V. of rear advertising section. Write in your score on coupon facing Page V.

1. How often is a U. S. National census taken?
2. What is the derivation of the word "alphabet"?
3. What product is advertised by the slogan: "Keep that school-girl complexion"?
4. What is the common origin of the words "czar" and "kaiser"?
5. Where do Hottentots live?
6. What have the words (a) "gauche" and (b) "sinister" in common?
7. How many U. S. senators are there?
8. What product is advertised by the slogan: "What a whale of a difference just a few cents make!"?
9. What famous character in modern fiction lived in Baker Street, London?
10. Who was the Greek god of time?
11. What nationally known local festival is held annually in New Orleans?
12. What city is built on seven hills?
13. What forms the basis of law in Louisiana?
14. What famous actor was brother to an assassin?
15. What is a pariah?
16. What was the distinguishing characteristic of Medusa?
17. What are carnivora?
18. Who was the author of Poor Richard's Almanac?
19. Who gave away more money than any other Scotchman who ever lived?
20. What is a "statute of limitation"?
21. Whose offices are at No. 10 Downing Street?
22. Why is the village of Oberammergau, Bavaria, internationally known?
23. Are there more red stripes or white stripes on the American flag?
24. How many is a baker's dozen?
25. What is an iconoclast?

# ALEXANDER HAMILTON INSTITUTE

# Announces

## A NEW PLAN OF EXECUTIVE TRAINING

FOR sixteen months the Institute Staff has been working to prepare for this announcement. The results of its work make this one of the most important, perhaps *the* most important, announcement ever made by the Institute.

Important to whom?

Not to the *average* man, because he probably hasn't any more than a vague notion of what is going on in the world of business and doesn't care much about it either.

But to that smaller group of men who are the executives, and coming executives, in American business this message will be of utmost importance.

The next five years, even though they be years of prosperity, will prove a more severe test of personal and executive competence than any similar period in the past. Men who want to win financial independence must meet a new set of requirements. There will be none of the indiscriminate,

get-rich-quick prosperity of the last boom. A higher order of business knowledge, executive training, and understanding of the new rules of industry will be the price of better-than-average income.

The Alexander Hamilton Institute is ready to prepare you for the test of ability and training which lies ahead. In each new business cycle during the past twenty-seven years, the Institute has developed and remodeled its Course and Service to meet the special needs of the day. Thousands of men have trained for executive responsibility and financial independence under the Institute's guidance.

Now again, the Institute, keeping abreast of American business developments, offers a **NEW PLAN** for executives and for those *who will be* executives—a plan built to meet the new conditions and to fit more exactly your personal requirements for growth and progress.

## For Men Who Set No Limit on Their Futures

## This Free Book Tells a Vital Story

IN this new plan of executive business training, the Institute offers you the ideas, experience, and judgment of the most successful business men in America, formulated and organized to put at your command the proved principles and methods of modern business.

Among the dozens of American industrial leaders who have helped to build the Institute's Course and Service are Alfred P. Sloan, President, General Motors Corp.; J. C. Penney, Chairman, J. C. Penney Co.; C. M. Chester, Chairman, General Foods Corp.; M. H. Aylesworth, Chairman of the Board, Radio-Keith-Orpheum; Clifton Slusser, Vice-President and Factory Manager, Goodyear Tire & Rubber Company; J. S. Tritle, Vice-President, Westinghouse Electric and Manufacturing Company; Hubert T. Parson, Director, F. W. Woolworth Co.; Frederick W. Pickard, Vice-President, E. I. du Pont de Nemours & Co., Inc.; Putnam D. McMillan, Vice-President and Director, General Mills, Inc.; Paul M. Mazur, General Partner, Lehman Brothers, New York Bankers; Thomas J. Watson, President, International Business

Machines Corp.; David Sarnoff, President, Radio Corporation of America.

If you agree that the methods and judgment of such men will guide and inspire you, if you can appreciate the priceless opportunity of sharing their viewpoints and learning from their experience, then you will read "Forging Ahead in Business" with eagerness and profit. The new edition of this famous book carries a message of vital importance to you. The coupon will bring your free copy.

# WHY THE ARISTOCRAT OF REFRIGERATORS

## *Costs you Less to Own*

**K**ELVINATOR, the first electrical refrigerator, has always been the aristocrat of the field. Today it offers more luxury than ever—the handsomest cabinet, more convenience features, greater quantities of ice, lower temperatures assuring more dependable cold storage.

The new plus-powered Kelvinator does more. It saves more. Here are two facts that are leading thousands of owners of automatic refrigerators, hitherto considered satisfactory, to replace today with the new Kelvinator. **FACT ONE:** The new 1937 Kelvi-

nator is plus-powered. It has as much as double the cooling capacity of other well-known refrigerators of equal size.

**FACT TWO:** The new Kelvinator runs only half as many minutes per day—during the rest of the time it maintains low temperatures using no current at all.

The new Kelvinator costs more to build, but it costs no more to buy than a less powerful, less economical refrigerator. It can be bought on your dealer's special time payment plan—or for as little as 90¢ a week on the Kelvinator ReDisCo Plan.

### KELVIN HOME

WHERE A NEW WAY OF LIVING BEGINS

equipped with Kelvinator electric refrigeration, complete air conditioning with year 'round automatic control of heat and humidity, electric or gas range, washing machine, ironer and automatic water heater — can be constructed by your own architect and builder for less than \$7,500. The Kelvin Home Book, with exterior views, floor plans and description of equipment, is now available without cost wherever Kelvinator products are sold.

**KELVINATOR**, Division of **NASH-KELVINATOR CORPORATION**, Detroit, Michigan. Factories also in London, Ontario, and London, England.

Clerk, M. D. Jones, 1912, Orono  
Treasurer—Paul D. Bray, 1914, Orono  
Executive Secretary—Charles E. Crossland, 1917, Orono  
Assistant Secretary—Philip J. Brockway, 1931, Orono

## Through These Doors . . . .

Front Cover: Main entrance to Merrill Hall, housing the Home Economics Department of the College of Agriculture. This hall, named in honor of the late Dean Leon S. Merrill, contains modern, well-equipped laboratories and classrooms for instruction and practice work in foods, child care, textiles, and other phases of Home Economics.

## Class Reunions and Organizations

Which comes first, a good reunion or a good alumni class organization? That question is a near parallel to the proverbial "hen and egg" query. Good organization is necessary to successful class reunions and certainly good class reunions are equally essential to maintaining the high morale of the class.

It is more than a coincidence that certain classes have consistently held very successful class reunions. Success here is measured by the number and proportion of class members who return as well as thorough enjoyment of the event. There are several classes which always come back in large numbers and whose members enter into the spirit of the occasion with genuine enthusiasm.

Reunions offer many attractions. Among them is the opportunity for a brief interlude from the affairs of daily life, the opportunity for enjoyment under unusually favorable conditions. Here everybody does or should lay aside formality. Reunions make alumni more aware of the developments and progress of the University, and last and most important of all they kindle and cement friendships—those priceless gems of memory which glow more and more with the passing of years.

Members of the best classes look forward to reunions. They discount the amount of substantial work which is inevitable. Busy men and women are willing to carry their share of the work and the fun, for it is fun serving on good reunion committees. They mean just that much more pleasure because of the added contacts which come from the meetings and chatting of "the good old days."

To build successfully, classes must encourage unity. All functions should be planned for the entire group and the program should hold all the members together throughout the reunion. Good organization is absolutely necessary.

More and more the need for able and interested class officers becomes evident. Experience would seem to indicate also that some activity between reunions will be helpful in maintaining and developing interest. This may take the form of outings, dinners, or inexpensive class letters. Some such program is recommended to all class officers.

During its first years *The Alumnus* was mailed to all alumni regardless of whether or not they paid dues. In this way members found it possible to maintain contact with each other. Unfortunately this policy is no longer possible, and some substitute should be found to reach those who are out of contact with the group.

The members of some classes have allowed the idea to grow upon them that their class just cannot put on a good reunion. It is high time that such thoughts be dismissed. Such a thought is a fallacy, for this thing can be done if a few people will put their shoulders to the wheel.

The officers of the General Alumni Association express the earnest hope that classes which are meeting next month will give special consideration to developing a more active and closely knit organization. This will result in benefit to the class, to the individuals, and most of all to the University.

## Alumni Trustee

The nomination of alumni representative of the University Board of Trustees is one of the greatest honors which the General Alumni Association can confer upon an alumnus. As with any real honor, this appointment carries with it responsibility. The future of the University is in very considerable measure determined by the group of nine Trustees who pass upon the policies and business of the institution. Through the alumni trustee our alumni are kept informed of University developments and through him also, alumni express their thoughts concerning such matters as they may consider as being within the scope of their deliberations.

Harold M. Pierce '19, of Bangor, who has just been appointed by Governor Barrows upon recommendation of the Alumni Council to succeed the late Hosea B. Buck, appears to be peculiarly fitted for the office of alumni trustee. His many important business interests and contacts, and his acquaintance with alumni affairs will be valuable assets to him, to the Board, and to the University.

The list of alumni who have held this office is an impressive one. William T. Haines '76 was the first alumni trustee. He was followed by Edwin J. Haskell '72 who served for a term of nineteen years; following him came Charles E. Oak '76 whose untimely death occurred only a few months after his appointment. His successor was Mr. Buck whose sixteen years of able service is well known to alumni of today.

Mr. Pierce is to be congratulated. That he will ably represent the alumni point of view and that he will render valuable service to the Board of Trustees is assured. There has been a very fine relationship between the University administration and the General Alumni Association. We look forward confidently to the continuance of this happy situation.

# HEADLINERS for ALUMNI DAY

DEAN JAMES NORRIS HART '85 will be the guest of honor at the Luncheon when he will receive the Book of Tribute inscribed with the names of alumni, fellow faculty members, and friends, who have contributed to the Hart Scholarship Fund to perpetuate his name and service in the annals of Maine.

GOVERNOR LEWIS O. BARROWS '16 will leave the Ship of State long enough to extend greetings to his hundreds of alumni friends at the annual Alumni Banquet when he attends the first Commencement program since his inauguration as Governor of Maine.

ENGINEER FRANK E. TRASK '87, as Honorary Marshal, will come from California to represent the Fifty-Year Reunion Class during the day's festivities, returning once more to the old scenes and old friends of former days.

DEAN OF WOMEN GERTRUDE PEABODY '20, of Temple University, will be a speaker at the Alumni Banquet, representing the fast growing number of outstanding alumnae of which Maine and its graduates are justly proud.

LAWYER JOHN D. MACKAY '00, graduate of one of the first classes from the University of Maine Law School, will return from the Massachusetts State Senate where he has served the Norfolk District since 1929, to be a speaker at the Alumni Banquet.

PRESIDENT GEORGE S. WILLIAMS '05 will preside at his third Alumni Banquet as President of the General Alumni Association to which he has given so freely of his time, effort, and ability.

PRESIDENT ARTHUR ANDREW HAUCK of the University will preside once more over the general Commencement Program and speak at the Alumni Banquet, when his friendly sincerity and genial leadership will be one of the longest remembered features of Commencement.

SECRETARY JOHN S. WILLIAMS '87, tireless organizer and planner for the Fifty-Year Reunion, will enroll the members of his class as the youngest "old grads" on the lists of the newly-organized Senior-Alumni Group as they receive their Fiftieth Reunion diplomas at the Banquet.

## JUNE 12, 1937

# Commencement Days are Here Again

Plans and Program Announced--Dean Hart to be Honored--Gov. Barrows to Attend

**B**ACK to the Campus for Commencement" is the rallying cry for all "old grads" and young grads this time of year as the annual program for the graduation week-end rounds into shape. Alumni Day, the big day for the old timers, comes this year on June 12—a date to be underlined on all alumni calendars. Features of the day include the noon Luncheon, the Alumni Banquet festivities, reunion class "stunts," and a host of other items of fun and seriousness.

The Alumni Luncheon this year will honor Dean James Norris Hart, class of 1885, faculty and administration member from 1887 to 1937, completing this year his fiftieth consecutive year of service for the University. Dean Hart, one of Maine's oldest, best-known, and best-loved faculty members, will receive, this Commencement, a Book of Tribute, containing the names of all contributors to the Dean Hart Scholarship Fund, being created to perpetuate his name at the University.

1912, facing its 25th reunion with characteristic enthusiasm and the determination to renew their youth again or bust, with a previous attendance record of 34 in 1922 and 25 in 1934, is making a valiant effort under the direction of Karl D. Woodward, of Lachine, Quebec, president; Arthur L. Deering, of Orono, secretary; Maurice D. Jones, of Orono, treasurer, to reduce to wreckage the silver anniversary attendance records of 1909 and 1911 with forty each of their members back for their twenty-fifth.

Once more the fifty-year class—1887—will receive special recognition during the day. The creation, last year, of the "Senior-Alumni," grouping together the fifty-year and all older classes in one organization, proved highly successful and will be continued this year. 1887, the "baby" of the group, will be welcomed with appropriate warmth. Other reunion classes, 1899 to 1902 and 1918 to 1921, will add their share or more to the fun and the noise of the proceedings.

## Alumni Banquet

The Alumni Banquet this year at six o'clock on Saturday, will again provide a program of interest and color. With George S. Williams '05, president of the General Alumni Association, presiding at the head table, and Dean Arthur L. Deering '12, as toastmaster, proceedings are sure to go wittily and well. Honorary Marshal this year will be Frank E. Trask '87, of Los Angeles, Calif., outstanding

engineer, writer, lecturer and national authority on water conservation and flood control. The banquet program will also feature Miss Gertrude Peabody '20, of Philadelphia, Pa., one of our outstanding alumnae. Miss Peabody has held the position of Dean of Women at Temple University since 1930 and will be well known to many alumnae as instructor in Home Economics at Maine before going to Philadelphia.

John D. MacKay '00, of Quincy, Mass., a member of the Massachusetts State Senate, will be another featured speaker. A graduate of one of the earliest classes of the University Law School, Mr. MacKay has for years been active in politics and public life. He is well known as an effective and witty speaker.

During the Banquet, 1912 promises fun and frolic, although refusing to disclose

# "1912 THIS WAY"

By M. June Kelley

**T**WENTY-FIVE years in retrospect is far from the scene of action and I find that I seem to be looking through dark glasses and that many of the big events of our four years are only dimly visible. There are, however, some memories of incidents and people that are pleasant to recall. So join me and let's look back at our infancy now, then get together in June as a grown up family and go on from there.

Entering college two weeks late, my first impression is of getting established at Mt. Vernon House and my next of being seated in the back row at Chapel next to—guess who, Karl (with a K) Woodward. As soon as he had acquainted me with his good points he pointed out some of the celebrities; Bill Haynes, the organist of "Hot Time in the Old Town" fame; "Prexy" Fellows with his thatch of red hair; Mrs. Balentine, who never forgot our initials; Steve Farrell, the beloved coach; Janey Hart and Dean Stevens with whom we had many pleasant contacts later.

After a Freshman party or two our acquaintance with the 1912 members had broadened and we then got an inkling of how famous we *might* become, but alas! that brought us to the attention of the Sophomores, which was not an altogether pleasant experience for the male element at least.

A fall evening in 1909, 10 P.M. A group of girls huddled in a window of Mt. Vernon, watching while the Sophomores brought the Stillwater to the Freshmen, via the fire hose, since the college had forbidden that Freshmen be submerged in the river. Sequence—expulsion of our class officers, indignation meetings, strike!

DEAN ARTHUR L. DEERING  
Class Secretary for 1912 and Toastmaster  
for the Alumni Banquet

'Twas with mingled feelings of class loyalty, recklessness, bravado and fear for the end of our college careers that we joined the marches and attended the meetings. Me oh My! what a relief when the grievance was settled and we were students once more. Even tho Professor Woodman had assigned the usual Physics lesson to an empty room so that plenty of grinding was necessary to catch up.

Then there was the thrill of sitting in the bleachers while our own band led the baseball, football and track teams onto the field, whether to victory or not, mattered not so much, the thrill was there. If it were a victory the co-eds enviously watched the snake dance and wished they could join the men in this jubilant display of feeling. We had our 1912 stars, Charlie Cavanaugh, Tom Shepard, Arthur Deering, "Cat" Smiley, "Jock" Cleaves, "Ty" Cobb, Lloyd Houghton, "Bill" Schrupf, "Bill" Parker.

Of course:

You took public speaking and had "Windy" Daggett try the punch method to test articulation.

Experienced the bugaboo of Sophomore themes.

Joined the 7:30 P.M. Mail group at "Ike" Sampson's and its *casual* meetings with the opposite sex.

Were proud of "Bill" Parker's athletic prowess.

Admired the first "swanky" white felt coats in which the baseball team blossomed out from the proceeds of Mrs. Ralph Jones' production "Foolishness."

Remember "Billie" Ballou and his laugh like a nanny goat.

Recall the class couples, Bob Buzzell and Hazel Mariner; Bob Sawyer and Edee Folsom whom we now know as Mr. and Mrs.

Tried to keep awake on the 1 A.M. car to Bangor after the Military Ball, Sophomore Hop or Junior Prom.

Marvelled at Professor Colvin's knowledge of history and her intuition in quizzing for the answers you didn't know.

Gasped at "Paddy" Huddilston's vocabulary and enjoyed his wit.

Knew that we had a law school and such shining lights as Marty McHale, Allie Cook, Ralph Ingalls, Leigh Harvey, and Frank Fellows.

Went to a football game or track meet at Colby, Bates or Bowdoin and then knew for sure that *Maine was the only college.*

Sang the Stein Song with fervor and pride in our Alma Mater.

Hated to go down the receiving line at the formals, then discovered that it was rather fun and the Professors and their wives were quite human.

Enjoyed the confusion of the student

## "Senior Alumni" Group Plans Second Meeting

Dean James N. Hart '85, secretary-treasurer of the "Senior Alumni," comprising all classes up to and including the fifty-year class which is this year 1887, is busy with plans for the second official meeting of this group. At Commencement last year, the Senior Alumni were for the first time organized and met in their first official meeting June 6.

At this meeting officers were chosen and plans made for drawing up a constitution and by-laws. Prof. George H. Hamlin '73 was selected for the first presidency of the "Old Grads" by popular acclaim; E. S. Abbott '84 was elected vice president and Dean Hart secretary-treasurer. Josiah M. Ayer '86 was appointed chairman of the committee for drawing up by-laws and constitution. About thirteen of the group were in attendance at the first meeting.

This year, Secretary Hart plans to send out details to all alumni eligible for this Group, announcing the second meeting on June 12 this year at 8:45 a.m. Classes from 1872 to 1887 inclusive are now eligible, and the officers hope to see a record-breaking attendance for the next meeting.

---

who slipped up and introduced Professor Raggio as "Rags"

Sat into the wee small hours cramming for an exam and then the next day forgot whether Leo the XIII was Pope in the reign of Louis the XIV or what have you, while the mosquitoes blithely lunched on exposed parts as you tried to write the answers.

Remember signing a bank note for the first \$15 you earned to help pay off the *Prism* deficit.

Sailed down the Penobscot with the Phi Gammas.

Went to Wards at Eddington on the Beta sleigh rides.

Ate strawberry shortcake in February at the SAE's big party.

Tried to eat the frozen pudding made by Miss Comstock's Kappa Sigma Cooking School students.

Enjoyed Professor Garrett Thompson's College Sings on the library steps and were grateful to him for our first College Song Book.

Saw the campus in all the glory of a winter snow scene and loved it, even tho you may have struggled thru many a drift (and had even acquired a nipped nose or ear) to get to class in time.

And then—but isn't this a jumble of everything? And wasn't it all fun? And why don't we all get back to Orono in June and bring this record up to date.

❖      ❖  
Alumni Day, June 12

# GEORGE J. STOBIE '14 *Maine's Commissioner of Inland Fisheries and Game*

By Kenneth Fuller Lee

**P**ROBABLY no Maine Governor ever took a more active personal interest in the outdoor and recreational resources of the Pine Tree State than William Tudor Gardiner.

Owner of several fine bird-dogs, he knew the grouse and woodcock covers as few men knew them. Fishing was also among his hobbies, and early in life he developed the true sportsman's point of view that nothing should be killed nor caught unless it could be used, nothing should be wasted.

And so, when it became necessary for him to select a man to handle conservation matters in the State, he selected and appointed a man of his own type, George J. Stobie, our present Commissioner of Inland Fisheries & Game.

That was in 1929. Prior to this appointment, the Department had been struggling along for years under various political appointees, and its work had been largely confined to more or less sporadic attempts to check widespread poaching activities in all parts of Maine.

The methods employed in making these arrests, and the tricks frequently employed by the more or less untrained warden force of those earlier days had frequently resulted merely in antagonizing groups of sportsmen in widely scattered localities.

The laws governing hunting and fishing were not co-ordinated properly, they were changed so often that even the wardens themselves at times had difficulty in interpreting them.

The wardens were "free-lancing" they had no immediate supervision in the field and were thus conducting what amounted to a sort of guerilla warfare against a rather well-organized group of deer-jackers, fish-netters and dynamiters, who looked upon the wardens as a somewhat unnecessary evil.

Mr. Stobie's first job was to correct this situation, and the manner in which he has handled it has made him one of the outstanding Conservationists in this country.

Today the warden force is among the finest units of its kind in the United States. With Commissioner Stobie as its head, it comprises a system of District Supervisors, Chief Wardens, and Deputy Wardens numbering slightly over one hundred.

Warden's schools are frequently held, and here the men discuss the various problems which come up in their routine, and receive expert advice on the best methods of handling a given situation.

In the past six years the efficiency of

the Maine warden force has more than doubled. More important still is the vastly improved public sentiment regarding the men and their work. Sportsmen are commencing to grasp the fact that the warden is their best friend, that he is working for the best interests of the game, the fish, and the men who enjoy a day in the open.

Mr. Stobie attributes much of the credit for this change in the attitude of the public to the good work being done by the various sportsmen's associations of the State.

"These men know that the poacher is the worst possible drawback to sport with which we have to contend," he says. "The man who jacks a deer, dynamites a trout pool, or sets his nets illegally is cheating the great mass of real sportsmen."

Wardens are not instructed to go out and arrest people wholesale for minor infractions of the regulations governing hunting and fishing. First offenders are frequently released with a friendly warning; a boy with a short trout is often sent on his way with an admonition to mend his ways.

And the wardens are trained to be courteous in all their relations with the public, to give the best advice possible in an effort to improve the sport for everyone.

Under this modern system of game and fish management the annual deer kill has steadily increased since 1928. It has been estimated that approximately ten per cent of the deer population of any state is killed during an open season.

Granting that this is true, the annual deer kill serves as a fair barometer of the efficiency of the warden service, for deer cannot increase unless the wardens are on the job day and night.

Under Commissioner Stobie, Maine's record in this respect is an enviable one. Tabulations prepared from the files of the Department show that the deer kill legally and registered under the law have been as follows:

1928	9,051
1929	11,708
1930	13,098
1931	14,694
1932	15,449
1933	18,892
1934	13,284
1935	19,726
1936	19,134

The fishermen, too, have been getting plenty of attention under Commissioner Stobie's regime. When he took charge of

GEORGE J. STOBIE '14  
For more game and bigger fish

the Department's affairs, eleven fish hatcheries were producing a fluctuating annual output of about 2,000,000 trout and salmon, mostly of small size.

Hatcheries and rearing pools have been steadily expanded until at the present time they number 35, with an output of 5,833,343 trout and salmon last year, many of them of legal size at the time of stocking.

In addition, there are at the time of writing 5,480,195 game fish on hand at the hatcheries and rearing pools. The State is raising its own fish eggs, and the policy of the Commissioner is to hold all fish reared in the pools until they are large enough to take care of themselves a radical departure from former customs.

Commissioner Stobie's plans for the immediate future include such items as a project to raise and release black bass, something which has never before been attempted in this state.

The work at the Game Farm will be expanded, and it is now hoped that within a short time it will be possible to declare an annual open season on pheasants. This is good news to the thousands who love Maine's upland covers.

Another innovation is the recent purchase of a fast Stinson plane, which will be equipped with pontoons and used in combatting airplane poachers who drop into wilderness ponds and out again with more than the legal limit of trout.

The Department's ship will also be used  
(Continued on Page 10)

# Alumni and Faculty Publications

*A History of Education in Maine*, by Dr. Ava H. Chadbourne '15.

The publication of "A History of Education in Maine and a Study of a Section of American Educational History," by Dr. Ava Harriet Chadbourne of the School of Education, University of Maine, meets a long felt need.

Through her long experience and intimate research in the field of Maine's educational history, Dr. Chadbourne brings a splendid background for the preparation of this work. One of the most delightful features of the book is that it is so readable. Too often such a work is merely a compendium of rather dreary and uninteresting facts but Dr. Chadbourne has clothed these facts in so colorful a fashion that it makes the book one of deep interest to the general public.

Going back to 1602, the earliest beginnings in Maine, an interesting account is given of the indifference to education existing until Maine became a part of Massachusetts. Education during the period when Maine was a part of Massachusetts constitutes a most entertaining and valuable study and one which is sure to be of profound interest to all those engaged in the study of early American education.

Largely as a result of the work of Horace Mann who commenced his outstanding career as Secretary of the State Board of Education in Massachusetts in 1837 a revival of interest in education was created in Maine and in 1846 the famous memorial to the Legislature was presented by the friends of education which resulted in the creation of a State Board of Education.

In succeeding chapters Dr. Chadbourne deals with the development of teacher training and certification of teachers, the development of conventions, state, county and town, the beginning of summer schools, the adoption of free textbooks and of a state course of study, the development of compulsory education and the development of a statewide plan for the professional supervision of schools. As a matter of fact, in the entire book comprising over five hundred pages hardly a detail of Maine's educational history is left untouched.

All those interested in public education from any standpoint will feel deeply indebted to Dr. Chadbourne for her very fine contribution to the history of education in the United States. The book should have a wide appeal to many classes of readers and students and it is my prediction that it will always be considered as a recognized and outstanding authoritative work in its particular field.

Dr. Bertram E. Packard  
Commissioner of Education

*Friend Anthony Benezet*. By Rev. George Savage Brookes '25 University of Pennsylvania Press, Philadelphia, 1937. ix 536 pages. Illustrations. \$5.00.

Mr. Brookes, an Englishman by birth, attended the Bangor Theological Seminary and graduated from the University as an English major in 1925. As minister since then of the Union Congregational Church in Rockville, Connecticut, he has, by his energy and administrative ability, built up one of the strongest parishes of his denomination in New England. In 1933 he received his Ph.D. degree from the Hartford Theological Seminary, presenting as his doctoral dissertation a biography of Benezet which was the basis of the present volume.

The subject was a happy one, for Benezet was an important figure who had been strangely neglected, and Mr. Brookes' industry unearthed a wealth of material about him, from descendants of the family, Quaker records, and correspondence. A French Huguenot Quaker, born in St. Quentin in 1711 and died in Philadelphia in 1784, Anthony Benezet was for fifty years a devoted and beloved teacher, a friend to the unfortunate, and a writer on many philanthropic topics.

Mr. Brookes' study, besides sketching Benezet's biography in general, develops in separate chapters his activities and services in several different fields of social activity, emphasizing his importance in each. The writer's style is that of the pulpit address, vigorous, emphatic, and colorful on account of its effective use of simile and metaphor. The value of his book is enhanced by the inclusion of a twenty-five page bibliography of Benezet's works and of sources.

The book will inevitably take a place in historical and literary scholarship by making necessary a new appraisal of Benezet's importance in eighteenth century American thought.

Prof. Milton Ellis  
Head, Department of English

*One Good Night's Rest*, the first Hamlet Prize winning play (1935-36), by Clark Kunej '40, of the College of Technology, is a delightful little drama in one act and six short scenes.

The action, related in a quiet manner well suited to the delicate dramatic value of the play, takes place in the bedroom of Peter Vincent.

Mothers sometimes find it hard to understand their 'teen sons, and Mrs. Vincent is no exception. Peter can't sleep, but why?

Finally, Mrs. Vincent, as nonplussed about her son as ever, says good night, and leaves him to his Imagination. This

sardonic character appears in the form of a dead white face, draped in madonna fashion, above his bed. And, throughout the rest of the play, he reveals to us Peter's innermost thoughts about himself. The scenes are technically designed to be viewed as flashbacks and take place within the walls of Peter's bedroom. We see him having dinner with Mr. Donohue and Bob, a football idol, and we learn how his illusions about them both have been shattered. We then hear him asking Betty, in the high school corridor, for a date to the Spring Dance. At the end of this scene, Imagination expresses the significance of it, as he does in each instance. Imagination: "What a shambling, foolish puppy you were! And how I make you writhe with the thought of it now " And, once more we are in the presence of Peter's thoughts. This time we have pictured for us how he thinks he is going to talk with Betty at the dance; but Imagination is on hand again to tell him that his visualization, because of his "awkward body will never come" true. After a talk with both parents, he snaps off the light, but try as he will to sleep, his Imagination is there to tantalize him further. This time, Peter's thoughts are concerned with the fear of failing at the Track Meet on the coming Saturday: But, alas, Imagination has had his fun for one night. From utter exhaustion, Peter falls asleep, and the play ends.

The play is a sensitive character portrayal of a boy at that incomprehensible age when no one—not even his mother—can possibly understand him. New York critics would say that it "has no dramatic action" (one of their favorite phrases), and yet there is action in every scene, a subtle action that touches man's finer feelings.

From year to year it will be interesting to follow the Hamlet Prize Contest plays.

Herschel Bricker

Department of Public Speaking

*Motor and Control Applications*, by George H. Hall, M.E. '94, McGraw-Hill Book Company, New York, 1937.

George Hall, who graduated in the class of 1894, now salesman for the General Electric Company of Newark, New Jersey, has produced one of the few books on the subject of motor and control applications to industry. This subject, an important, complex, and comparatively little known phase of engineering, has for years deserved more attention than it has received. The application of electrical controls to industry is becoming rapidly one of the vital functions of industrial engineering. Mr. Hall's book, written from years of experience in this problem of applying electrical equipment to specific industrial needs should be invaluable to industrial engineers.

# ELMER J. WADE '19 WINS GENERAL ELECTRIC AWARD

**M**ODESTY is said to be a virtue, but sometimes it is carried so far that it takes some unusual event to bring a man's achievements out into the open, where they can be seen and proper recognition can be given to them. This is true in the case of Elmer J. Wade '19—E.J. as he is called by his closer associates in the General Electric Company, at the Pittsfield, Mass., works.

E.J. has just been given the Charles A. Coffin Award—the highest honor which the General Electric Company can bestow on any of its employees—an honor which is only given for extremely meritorious work. In the past twelve years, 484 of these awards have been given out, 33 of which were announced about a month ago. Considering that only some 40 individuals out of approximately 50,000 or more employees are rewarded each year, it will be seen that this is indeed a great honor.

The wording on E.J.'s Award reads as follows: "In recognition of his outstanding accomplishments in greatly extending the use of expulsion protective gaps and in developing testing technique in equipment for these and other protective apparatus requiring the measurement of high voltage transients."

These phrases probably do not mean anything to the average person, so it should be explained that they refer to E.J.'s extraordinary ability and ingenuity in the design of testing equipment of all kinds and to the fact that by his intelligent use of the test data obtained by such equipment, he worked out the fundamentals for the design of a new and more economical device to protect transmission lines from lightning. Such an achievement means a lot to the electrical industry, not only in dollars and cents, but in engineering prestige.

Ever since E.J. first appeared in Pittsfield in 1920, after one year on test in Schenectady, he has shown a preference for designing some mechanical or electrical gadget, for trying out some new electrical circuit or for attempting to improve the accuracy of some existing device. He did much of the original work in this country on the Dufour type of cathode ray oscillograph, which will measure transient voltages accurately to one ten-millionth of a second. A synchronous switch, which he designed to work with one of these (then) new types of measuring instruments, increased its usefulness tremendously. This has been only one of his many contributions to the technique of high speed measurements of transient voltages.

Shortly after the cathode ray oscillograph had been successfully worked out for use in the laboratory, it was thought that very valuable design data could be obtained if this whole outfit could be used on an actual high voltage transmission line and thus record service conditions.

It fell to E.J. to see what could be done. He arranged a very condensed set-up of the oscillograph, even including a dark room so that the oscillograms could be immediately developed, mounted it on the chassis of a truck, and built, on a trailer, an assembly of capacitor units so as to get an artificial lightning discharge of about one million volts.

With this outfit he journeyed out to Michigan and spent three or four months one summer taking all kinds of measurements. E.J.'s truck has since then done considerable traveling and may be considered as having opened up an entirely new method for electrical research investigations.

All this has to be told about E.J. for he would never tell anyone as to what he has done. If asked, he would probably belittle his share in the various developments that have occurred during the past

sixteen years. But those close to him have known for some time what he has been doing and have appreciated his real worth.

In his personal life, E.J. is happily married and has a 15-year old daughter. His home is situated at Pontoosuc Lake, one of the largest and most beautiful lakes near Pittsfield in the Berkshire Hills. In the cellar of his home he has a quite completely equipped machine shop where he can putter around to his heart's delight. His automobile and his radio each bear witness to his inventive turn of mind, as well as a short-wave transmitter which is of original design. He has never lost his love for his native state and his University, and almost every vacation sees him start off for Boothbay Harbor where he can indulge his desire to get out on the water.

E.J. gets a great deal out of life; both his job and his outside interests are congenial to him and his happy disposition has won him many friends, all of whom are much pleased that he has received this recent public recognition of his achievements.

Elmer J. Wade '19 in the General Electric Research Laboratory of the Lightning Arrestor Engineering Department at the Pittsfield (Mass.) works. (Cathode-Ray Oscillograph Equipment for low-voltage testing up to 100 KV.)

## Legislature Restores Full Mill Tax Income

Early in April the Maine Legislature took action whereby the full mill tax was restored to the University thereby providing for an income during the next biennial period of \$662,000. This will be the first time in five or more years that the University will have had the full mill tax. Governor Barrows in his inaugural address recommended the restoration of this income to the University. This recommendation together with the interest of the many friends of the University has resulted in the action of the Legislature.

In February a committee of legislators visited the campus to secure first-hand knowledge of the situation, and to get facts about the size and condition of the plant and needs of the University.

While the income will be about \$662,000 which is slightly less than \$100,000 more than the amount received this year under the five-sixth of a mill, it will actually be nearly \$1,000,000 less than the appropriation of 1931-32. This decrease is due to the shrinkage of the assessed valuation of the State. During the last five years the University has returned or failed to receive some \$600,000 less than it would have received under the full Mill Tax Act. This has not only prevented any development of the plant but has also made necessary very serious curtailment in maintenance expenditures.

### Dean Hart Scholarship Fund

The eagerness of alumni, faculty associates, and friends of Dean James Hart to express their appreciation of his half-century of service to Maine by contributions to the scholarship fund being established in his name has brought the drive for this fund well "over the top" of \$5,000 set up by the committee as a tentative goal. The latest official report, May 3, gave the highly gratifying total of \$6,605 for this fund. The committee now hopes to be able to present a total of one thousand individual donations for the fund.

This sum is the result of 874 individual gifts from alumni, present and former faculty and administration associates, and friends of the Dean; twenty-six gifts from present faculty and administration members, and twenty from former associates and friends, added to the 828 alumni contributions received make an array of names certain to be most gratifying and pleasing to the retiring Dean. Gifts have ranged in amount from fifty cents to a hundred dollars, each contributing what he or she felt was possible. Response has been widespread, too, gifts having been received from California, Texas, Canada, South America, Honolulu, England, and even Canton, China.

## Pierce '19 New Trustee

Harold M. Pierce '19, of Bangor, has been appointed by Governor Barrows, upon nomination by the Alumni Council, to the post of alumni representative on the Board of Trustees of the University, the position made vacant by the sudden death of Hosea Buck this winter. Mr. Pierce, unanimously nominated by the Council at a special meeting as alumni representative, comes to his new responsibility with a wide background of experience in alumni work.

HAROLD M. PIERCE '19  
Newly appointed Alumni Trustee

He has been a member of the Alumni Council for many years, and served as vice president of the General Alumni Association. He has served also as a member of the vital Dues and Finance Committees of the Association.

As a member and officer of the Penobscot County Alumni, Mr. Pierce has been closely associated with the local alumni activities. In many other ways also, through the years since his graduation in 1919, he has been in close contact with the problems, needs, and plans of the University and its graduates.

Since his graduation from Maine, Mr. Pierce has been engaged in the banking and investment fields. As representative for Harris, Forbes & Co. in Maine for nearly fifteen years, he established an outstanding reputation in the investment field. He is now president of the newly organized firm of Pierce, White, and Drummond, operating in Bangor and Waterville, a general investment business. Mr. Pierce is also trustee or director of a number of local private and charitable organizations as well as a trustee of the Eastern Trust & Banking Co., the Penobscot Savings Bank, and the estate of Albert E. Bass and the Coe estates.

## Commencement Program

(Continued from Page 5)

the details. In addition, again President George S. Williams will award attendance cups—the Twentieth Century to the class since 1900 with the largest percentage registered, and the 1908 Cup open to all classes.

One particular feature of the banquet this year will be the presence of Governor Lewis O. Barrows '16, attending his first alumni function as Governor of Maine.

An innovation in the general program this year will be introduced in the form of an alumnae tea at 3:45 which is being sponsored and planned by the sororities. This will give the girls a chance to meet, rest, and gossip about each other and old times. The senior-alumni sing, a new feature inaugurated last year, will again be featured for 6:45 Sunday, on the Library steps.

We suggest, that all alumni who are planning to return, make room reservations early by mail and, at the same time, reserve luncheon and banquet tickets as wanted. We suggest that alumni register at the booths in Alumni Hall just as soon as they arrive, to be sure and give their class the credit of their attendance. Individual registrations will again be posted periodically on large boards displayed near the booths. We suggest, finally, that alumni, young and old, near and far, throw their worries out of the window, lock their office doors, and come by train, bus, car, boat, plane, or buggy, "Back to the Campus for Commencement."

### George J. Stobie '14

(Continued from Page 7)

for aerial survey work, for quick transportation of wardens and supplies to areas which otherwise would be inaccessible, for searching for lost persons, and for transporting sick and injured individuals in the woods to the nearest hospital.

"We are in open competition with other neighboring resort states for our share of the tourist and sporting trade," says the Commissioner. "We cannot continue to advertise good hunting and good fishing unless we are prepared to back up our claims."

It has been estimated that more than a hundred millions of dollars of tourist money was left within Maine's borders in 1936 by the out-of-state folk who came here to enjoy our natural advantages.

Commissioner Stobie's job is to keep this money pouring in, and to see that the resident hunter and fisherman gets his full share of sport in the outdoors.

It is a big job, every sportsman realizes that, and the great majority of well-informed lovers of the rod and gun are well satisfied with the manner in which he is carrying the work along.

# ATHLETICS

## VARSITY BASEBALL

### Maine 9—Colby 3

In the season's opener, an exhibition game against Colby at Waterville on April 19, Maine's heavy hitters broke up a 3 to 1 lead in the eighth inning to score eight runs in the final two frames. Arthur Chick, of Monmouth, a sophomore addition to the twirling staff, and Ernie Reidman, of Auburn, a junior, did the mound work for Maine and withstood most of the assaults of the Colby hitters.

Phil Mealey, of Machias, a senior, did a capable job behind the bat and also turned in one of the best hitting records of the day; Dwight Lord, of Camden, regular third-sacker also turned in a good day at bat.

### Maine 4—New Hampshire 3

A two-run rally in the eighth inning gave the Maine sluggers a slim lead over their traditional rivals at Durham, N. H., on April 27. Johnny Greene, long right-hander from Pomfret, Conn., held the Wildcats to six hits and three runs in the eight innings he worked; Ernie Reidman, of Auburn, taking over the mound assignment in the ninth, retired the New Hampshire men in order. Meanwhile, through timely hitting by Day, Keegan, Bell, and Clark, Maine put across enough to win. Triples by Day and Keegan, and a double by Lord helped out the tally.

### Maine 20—Connecticut 5

Four runs in the first and three in the second inning set the pace for the Maine team in their second New England Conference game at Storrs, April 30. Errors in the field and a parade of Connecticut pitchers, gave Maine a big day at the plate. With Ernie Reidman starting on the mound and being helped out by sophomore Art Chick, of Monmouth, after the seventh, Maine's lead was never in real danger. Third sacker Dwight Lord, of Camden, starred at the bat with a double and four singles for the day, followed closely by shortstop Fran Tapley, of Robinson's, with a triple and three singles.

### Northeastern 10—Maine 7

Northeastern toppled Maine from the New England Conference lead at Boston on May 1 when the Huskies bunched hits to score five runs in the fifth inning. Johnny Greene, retiring under the barrage of Boston hits in the fifth, was replaced

## ATHLETIC EVENTS

### Spring, 1937

14-15	New England Intercolleg. (Tentative)
17	Bowdoin at Orono
22	Colby at Orono
24-25	State Tournament at Orono

by Art Chick who held the home team to two from then on, but in spite of efforts by the Maine batsmen, the Huskies' lead was too great. Dwight Lord totalled four hits for the day as did center-fielder Alton Bell; sophomore Kenneth Day, of North Berwick, at second base hung up a triple and a double out of four trips to the plate.

At the close of the girls' basketball season, with the sophomore team finishing in first place, six girls were selected as an All-Maine Team. They were, forwards, Mabelle Ashworth, of Orono, a senior, Dorothy Silver, of Bangor, a sophomore, and Alice A. Donovan, of Houlton, a freshman; guards, Elizabeth Story, of Pigeon Cove, Mass., a senior, Mary Deering, of Orono, a junior, and Elizabeth Henry, of Thomaston, a sophomore.

## VARSITY TRACK

### Maine 71—Springfield 66

Paced by flashing, red-haired Johnny Gowell, of South Portland, who showed an encouraging return to form after his winter season lay-off because of a pulled leg muscle, the Maine tracksters took the measure of Springfield College at Springfield on April 24 in the first outdoor meet of the season.

Gowell, by winning firsts in both high and low hurdles and placing second in the broad jump, was high scorer of the meet; other Maine stars were Hardison and Leonard, of Caribou, and Thorndike, who tied for first in the pole vault, and Alton Bell, of Dennysville, who returned to form in the javelin throw to take first with a heave of 189 feet 5½ inches.

The real clincher of the closely contested meet, however, came in the hammer throw when Maine took all three places with Don Mayo, of Cumberland Center, Merwin Marston, of East Waterford, and Phil Rogers, of Mars Hill, placing in that order.

### Boston College 70—Maine 65

Scoring strongly in the middle and long distance races, a strong Boston College track team took the lead of Coach Jenkins' squad at Orono on May 1. By virtue of record-breaking performances in the quarter mile by Gill and in the shotput by Zaitz, B. C. became the second team in ten years to win a dual meet from the Maine tracksters. Three first places by Johnny Gowell, who equalled the Maine record in the 220 low hurdles and won the high hurdles and broad jump, boosted Maine's total. Other first places went to Sid Hurwitz, of Roxbury, Mass., who after tailing Gill in his record-breaking 440, came back to win the 20 in 22 seconds; Leonard and Hardison, who tied in the pole-vault; Harold Dyer in the discus; and Don Mayo in the hammer.

### Maine Wins State Meet

Last minute news from Waterville brings the report of the State Meet, May 8—Maine 46, Bowdoin 44, Bates 36, Colby 9. With Johnny Gowell out of competition due to an injury, the other men were forced to their best efforts to nose out Bowdoin. Hurwitz, winning the 440, the 220, and placing second in the 100, and Hardison, setting a new pole-vault record, starred.

## Nine Juniors Tapped For Senior Skulls

Nine University of Maine juniors received the highest non-scholastic honor that can be won by an undergraduate when they were named to membership in the Senior Skull Society following the Junior Week assembly April 30.

Those pledged were: Lincoln Fish, of Concord, Mass.; Roderick Elliott, of Montreal; Waldo Hardison, of Caribou; Wallace Gleason, of South Portland; Edward Sherry, of Portland; Sidney Hurwitz, of Roxbury, Mass.; Philip Rogers, of Mars Hill; Ernest Reidman, of Auburn; and Dwight Lord, of Camden.

## World Affairs Institute to Meet

The third annual Institute of World Affairs will be held at Maine on July 21 and 22 in conjunction with the Summer Session again this year. Factors which determine American Foreign policy will be the general theme of discussions by leading scholars and authorities in international problems. Lectures by the speakers and round table discussions will evaluate and examine various phases of the question.

Among the speakers this year will be William Smith Culbertson, Washington lawyer and professor at the School of Foreign Service, Georgetown University, Walter S. Lemmon, president of the World Wide Broadcasting Foundation, and James P. Baxter, of Harvard University. The faculty committee in charge of the Institute this year consists of Professor Rising L. Morrow, chairman, Professor Walter W. Chadbourne, and Professor Reginald Coggeshall. Complete details of the program will be announced.

## Governor Barrows Guest of Juniors

Governor Lewis O. Barrows '16 was guest speaker for Junior Week on the campus April 30, the first time in the history of Junior Week that the Governor of the state has addressed the assembly on this occasion. After outlining the development of the University, Governor Barrows asserted the pleasure he experienced this year in signing the bill restoring the full mill tax to the University.

"The University has been particularly fortunate in its choice of Presidents," the Governor said, and went on to mention the abilities and high personal qualities of the various administrative heads of the institution, since its founding, paying particular respect to President Hauck as one "for whom the respect and regard of teachers and pupils has steadily grown, who has impressed all by his sincerity and his honesty of purpose and thought."

## New Scholarship Raised

Ralph Kennison '22, of Augusta, secretary-treasurer of the Southern Kennebec Association, reports that that group have succeeded in raising their quota for a new Alumni Scholarship of \$50 to be awarded annually to an upperclass student from that section.

The Southern Kennebec Association comprises Augusta, Gardiner, Hallowell, Winthrop, Monmouth and other towns in the vicinity. The members of the group have given five year pledges for the scholarship to ensure its continuance, and through the energetic efforts of the officers, this new addition to the available student aid is now made a fact.

Professor Mary Ellen Chase '09, author and Professor of English Literature at Smith College, addressed students of the University in a series of three talks April 15 and 16, on the subjects "Our New England Heritage" and "Literary Backgrounds of Maine." Stressing the value and importance of classical culture in addition to a knowledge of current events, Dr. Chase recalled in vivid and interesting fashion the heritage of Maine and New England.

## 1910 Leads Honor Roll

Last call for the Honor Roll of Dues Payers for 1936-37.

The class of 1910 still holds first place as it did in the preliminary Honor Roll published in January. The names of 48 members of the class of 1910 appear in the Honor Roll as it stands today; but 1911 is steaming right along, thanks to the activity of Avery Hammond, secretary of this class, and former dues committee member, who has brought in several of his class, paying two or three years' dues with the result that they now have a total of 45—only three behind their friendly rivals.

Next in line comes 1917 with 41 names. Other classes in the order of number of names on the Honor Roll are: 1914-39

1916-36

1909-34

1912 and 1915 both 33.

The Honor Roll is composed of all those alumni who have paid dues for three consecutive years, including '36-37. The final list is to be published in the June *Alumnus*. Alumni who are in doubt as to their standing are invited to write to the Alumni Office.

## Students Elected to All-Maine Women

Fourteen women students were tapped All-Maine Women at the annual banquet, April 25. Those elected were: seniors, Marion Larsen, of Cumberland Center; Ruby Black, of Portland; Hope Wing, of Fairfield; Josephine Snare, of Hampden Highlands; Maybelle Ashworth, of Orono; Madeline Frazier, of Norwood, Mass., and Marjorie McKinnon, of Topsham; juniors, Catharine Rowe, of Bangor; Mary Helen Raye, of Eastport; Lucy Cobb, of Belfast; Jean Kent, of Bangor; and Mary Deering, of Orono; sophomores, Ruth Pagan, of Claremont, N. H., and Dora Stacy, of Shirley.

## Phi Kappa Phi Elects Members

Fourteen seniors and three faculty members were last month elected to membership in Phi Kappa Phi, National Scholastic honorary fraternity, founded at Maine forty years ago. On the basis of general scholastic achievement and promise, the following students and faculty members were chosen for election: Wendell Bagley, of Troy; Philip Bower, of Auburn; Woodford Brown, of Bangor; Cranston Folley, of South Portland; Walter Green, of Bradford, Mass.; John Hart, of Orono; Marjorie MacKinnon, of Topsham; Gustavus McLaughlin, of Dyer Brook.

Paul Morgan, of Thomaston; Richard Pfuntner, of Guilford; Lucinda Rich, of Charleston; Josephine Snare, of Hampden Highlands; Richard Spear, of Thomaston; Gerald Stoughton, of Orono. From the faculty, Roger Clapp, assistant professor of horticulture; Cecil Tyrrell, instructor in mechanical engineering; and E. Faye Wilson, associate professor of history and government.

## Maine Day

The third annual Maine Day, a program of co-operative work, sports, and entertainment, instituted by President Hauck three years ago as a substitute for Freshman-Sophomore class conflicts, was successfully carried off on May 5. Following a hectic and colorful campaign for election to campus mayor, John "Luke" Williams, the Bard of Ogunquit, nosed out other rivals for the distinction.

Wednesday opened with a number of campus improvement projects in which students, both men and women, and faculty members participated. The building of a new cross country trail, construction of campus walks, planting of trees, and various other projects of a like nature kept everyone busy during the morning.

The evening was enlivened by a series of acts and skits by all of the classes and the faculty.

# ON THE CAMPUS

Edwin S. Costrell, of Bangor, and Merrill Eldridge, of Bangor, both juniors, were elected editor-in-chief and business manager, respectively, of the *Campus*, student weekly newspaper, last month. They take the place of Oliver Eldridge, of North Adams, Mass., and Richard Berry, of Malden, Mass., former heads of the paper, who will graduate in June.

Robert E. Anderson's Broadway hit, *The Petrified Forest*, was presented by the Maine Masque in the Little Theatre on April 28 and 29 to a capacity audience. With a cast of twenty-one players, the drama offered many students an opportunity to demonstrate their playing ability, and an able, interesting, and effective performance resulted.

Under the direction of Professor Mark Bailey of the Public Speaking Department assisted by Donald Friedly, the play showed the results of careful supervision. The leading role was played by Clark Kuney, a sophomore from Boston, veteran Masque performer who gave a highly creditable performance as Alan Squier, the character portrayed by Leslie Howard in the original production. Other effective performances were given by Robert Cail, a sophomore from Portland, Barbara Whitredge, a sophomore from Brewer, and Dewing Proctor, a senior from Portland. The leading parts were ably supported by the large secondary cast.

Sixty women students are enrolled in a special "Waitress Training Course" sponsored by the Placement Bureau and Dean of Women's office this spring. The course of twelve practice lessons in the essentials of effective waitress work is under the direction of Miss Emily Elmore '37, of Augusta, and is made possible through the NYA Student Employment program. Women students with little or no experience in the work who are desirous of improving their chances for employment during the summer months at hotels and tea rooms, will receive instruction and practice in the work. The Placement Bureau in co-operation with the State NYA organization is hoping to increase the opportunities for such employment through the increased ability of the students taking the course.

The College of Technology and the Home Economics Department co-operated in an "Open House" exhibition of experiments, apparatus, and demonstrations

## STUDENT LEADER

Elizabeth M. Story '37, of Pigeon Cove, Mass., is a major in Economics in the College of Arts and Sciences. She has been for three years chosen on the All-Maine basketball and hockey teams, is president of the Women's A. A., a member of the Y.W.C.A., and a member of All-Maine Women. She has been on the *Prism* board, secretary of her class, Honorary Lieutenant Colonel, and president of Sophomore Eagles.

by student members of the departments on April 17 for the benefit of several hundred visitors from all parts of the state. The registration for this annual affair was more than doubled this year, as twenty-five high schools and seven academies registered as well as more than 400 adults. Experiments and demonstrations of electricity, chemistry, mechanical engineering, civil engineering, geology, and the different divisions of home economics attracted large and interested crowds.

Some of the more spectacular exhibits included artificial lightning, a model of Ripogenus Dam, home-made "quicksand," chemical warfare exhibits, and demonstration of modern cooking equipment and child nursery school play equipment. Radio and telephone exhibits also attracted wide interest.

Professor William J. Wilkinson of Colby College addressed University students on April 22 on the subject of the prevention of war. Stressing the need for co-operation between nations, Professor Wilkinson made a strong plea for the reduction of world tariff barriers and the need for a more forward-looking and internationally minded world statesmanship.

Mary Deering, of Orono, a junior, was elected president of the Women's Athletic Association on April 22. Other officers elected were Elizabeth Henry, of Thomaston, vice president; Marjorie Deering, of Orono, secretary; and Lucy Cobb, of Belfast, senior representative and treasurer.

The Women's Student Government Association likewise elected officers on April 22, with Mary L. Wright, of Portland, a junior, as president. The other officers are Eleanor Crockett, of Hopedale, Mass., vice president; Madge E. Stacy, of Shirley, secretary; and Alice A. Donovan, of Houlton, treasurer.

Alice R. Stewart '37, of Brunswick, has been awarded a fellowship at Radcliffe College for the coming year. The fellowship, of \$400, will permit her to study for her master's degree in history. Miss Stewart, a member of Phi Beta Kappa, is a student in the history department of the Arts and Sciences College. She is a member of the debating club, the Women's Forum, and the Y.W.C.A.

At the annual boxing tournament, on March 17, four new ring champs were named and two former title holders retained their supremacy. Hamilton Dyer, of Kennebunk, Paul Patterson, of Wilimantic, Robert Sherman, of Boothbay, and Hugh Mackay, of Winter Harbor, are the new title holders in the 118 pound, welterweight, 135 pound, and heavyweight classes, respectively; Tom Crozier and Phil Casasa, both of Portland, defended their titles in the light heavyweight and middleweight classes. Team honors for the evening went to Theta Chi.

Dr. George Vincent, former president of the Rockefeller Foundation of New York, will speak at the Scholarship Recognition Day assembly, during which most of the scholarships and prizes of the year are to be awarded, in the Memorial Gymnasium Wednesday, May 12.

Phi Kappa Phi, national honorary fraternity, in co-operation with all other honor societies on the campus, is the sponsor.

Dr. George Vincent was president of Chautauqua Institution, 1907-1915, and has been honorary president since 1915. Dr. Vincent was also dean of faculty of Arts, Sciences, and Literature at the University of Chicago, 1907-1911, and president of the University of Minnesota, 1911-1917.

# WITH THE LOCAL ASSOCIATIONS

**Northeastern New York Alumni** held their annual meeting at the Mohawk Country Club, Schenectady, N. Y., on March 18. Twenty-six members and guests were present to meet Alumni Secretary Charles Crossland and President Arthur Hauck as guests of honor. President Hauck discussed in detail University activities and plans to the interested and enthusiastic listeners who joined in an open forum afterward. During the business part of the program the following officers were elected: president, Milton F. Kent '30; secretary-treasurer, Winslow L. Jones '30; vice president, Albany Section, Roger C. Castle '21; vice-president, Troy Section, Everett G. Ham '16; vice president, Schenectady Section, Bennett R. Connell '07.

## Philadelphia Alumni

scored a record attendance of seventy-one at their annual dinner on March 20, when thirty-nine alumni with their families turned out to greet the guest of honor, President Hauck, and Mr. and Mrs. Lawrence W. Davee '22 who came over from New York to represent the New York Alumni of which Mr. Davee is president. During the dinner, singing of the old songs was led by E. N. Woodsum '15, and then Carl B. Eastman '25, president of the Association, introduced the guests.

## Boston Alumni

gathered at the University Club on April 9 for their annual dinner. Attendance, 115. After the serving of a buffet stag supper, President Ernest Lamb '10 called the meeting to order and spoke briefly of a trust fund for scholarship purposes which is to be discussed at the annual business meeting in May. President Lamb then introduced the toastmaster of the evening, Dr. Elmer D. Merrill '98, Director of the Botanical Department of Harvard. Dr. Merrill read a telegram from Governor Barrows regretting his inability to be present, and then called upon the guest speakers of the evening, Lawrence Davee '22, from the New York Alumni, Royal G. Higgins '17, of the Western Massachusetts Association, and I. L. Newman '18, of the Worcester County Association; Fred D. Knight '09, vice president of the General Alumni Association and chairman of the Dean Hart Fund Committee; Alumni Secretary Charles Crossland; and as particular guest of honor, President Hauck.

## Local Association Meetings Schedule for May and June

### May

- 12—Cumberland County, Falmouth Hotel in Portland at 6:30 D.S.T. President Hauck guest of honor.  
Philadelphia Alumni Luncheon, Architect's Bldg., Electrical Bureau, Restaurant, 6th floor, 17th and Sansom Sts., 12:15 p.m.
- 13—Merrymeeting Bay Association, Hotel Sedgwick, Bath. President Hauck guest of honor.
- 14—Boston Alumni Luncheon—from 12-2 p.m., main dining room, 14th floor, Chamber of Commerce, 80 Federal St.; inquire for Maine Table.
- 15—Classes '35-'36 of Massachusetts. 144 Elm St., Stoneham, Mass. Hot dog roast.
- 17—Knox County in Camden—6:45 p.m. D.S.T. Dr. J. H. Huddilston guest of honor.
- 18—Somerset County—Mr. Percy F. Crane, Director of Admissions, guest of honor.
- 19—Waldo County in Belfast.
- 21—Boston Alumni Luncheon—same as above.  
Franklin County in Farmington, Mr. Crane, Director of Admissions, guest of honor.
- 28—Boston Alumni Luncheon—same as above.

### June

- 5—New York Alumnae, Shadow Lake Beach Club, Campgaw, N. J. 5 p.m.
- 12—Lehigh Valley picnic.  
Philadelphia picnic.

## Minneapolis Alumni

welcomed Alumni Secretary Charles Crossland at a meeting in the Nicollet Hotel on April 15. Nine alumni and guests met for the dinner and general get-together during which alumni problems were discussed, news of the University was presented by Mr. Crossland, and a general visit was enjoyed.

## New York Alumni and Alumnae

combined in a dinner and dance at the Hotel McAlpin on March 19, when a total of about 150 from the combined Associations turned out to meet President Hauck and Alumni Secretary Charles Crossland, who brought the latest campus news. "Pep" Towner as toastmaster, Lawrence Davee '22, president of the alumni, and Ella Hall '19, president of the

alumnae, gave reminiscences and spoke of future plans for the associations. Officers were also elected as follows: president, Lawrence Davee '22; vice president, Linwood K. Betts '28; secretary, Clarence E. Bassett '29; treasurer, Sidney B. Coleman '26.

## Syracuse Alumni

on April 12 held their annual dinner meeting with Alumni Secretary Charles Crossland as guest. The attendance of twenty-two alumni, families, and guests was a record for this association. During the business meeting the question of dues was discussed to cover current expenses and an assessment of fifty cents for each member was voted. The same slate of officers was re-elected, consisting of Joseph O. Whitcomb '00, president, Vernon C. Bryant '26, secretary-treasurer, and Robert Chandler '29, vice president.

## Merrymeeting Association

alumni, the new name decided upon by the association from the lower Kennebec Valley section, in the vicinity of Bath, met on March 5 in that city. The dinner meeting was followed by a general discussion of present educational systems. Nineteen members and guests were present for the meeting.

## Pittsburgh Alumni

held one of their best dinner meetings in years at the Roosevelt Hotel on April 13 with a total attendance of 28. President J. W. Brown '99 presided and presented the guest speakers of the evening, President Hauck and Alumni Secretary Charles Crossland from the University, and Henry E. Cole '02, Dr. Kenneth Field '25, and Eugene N. Hunting '02.

## New York Alumnae

announce that their annual picnic for this year will be held at the Shadow Lake Beach Club, Camp Gaw, New Jersey, on Saturday, June 5. A baked bean supper will be served at five o'clock.

## Ohio Alumni

honored President Hauck at a banquet meeting in Cleveland on April 14, as he and Alumni Secretary Crossland visited the city. Fifty members and guests, a new record for the Ohio association, were present to greet the visitors from Maine, and the other guest of the evening, Harold H. Burton, mayor of Cleveland and a former Bowdoin man. Payment of the Ohio Scholarship fund was made at the meeting.

Officers for the year were elected as follows, president, Allen M. Knowles '04; vice president, Herbert A. Knowlton '07; secretary-treasurer, Ethel Barrett '15.

# ALUMNI PERSONALS

## DEATHS

### 1884

Robert C. Patterson, of St. Paul, Minnesota, for years an employee of the Great Northern Railroad, died March 26, at the age of 73.

Leaving the University in 1884 Mr. Patterson, a native of Lawrence, Massachusetts, took up residence in St. Paul in 1887. He was an employee in the general offices of the railroad since that time, serving as cashier and as assistant secretary. Mr. Patterson was active in Masonic work and Scottish Rites. He was a great baseball fan and well known for many years as an amateur curler.

### 1892

Dr. Robert H. Fernald, dean of the Towne Scientific School of the University of Pennsylvania, a graduate of the University of Maine, and son of the former President Merritt C. Fernald, died unexpectedly of a heart attack, Saturday night, April 24, according to a dispatch which has just come to the University.

Dean Fernald, who had achieved outstanding success in both the engineering and educational fields, graduated from Maine in 1892 in the department of Mechanical Engineering. He received degrees also from Massachusetts Institute of Technology, in Architecture, and from the Case School of Applied Science in Mechanical Engineering; he also was awarded the degrees of Master of Arts and Doctor of Philosophy from Columbia University, and the honorary degree of Doctor of Science from the University of Pennsylvania.

Dr. Fernald began his teaching career as an instructor at the Case School in 1893, and later was made assistant professor of mechanical engineering at that institution. In 1902 he went to Washington University, St. Louis, as professor of mechanical engineering, but in 1907 returned to Case to hold a professorship there. In 1912, he was appointed to the Towne Scientific School of the University of Pennsylvania as professor of dynamical engineering and director of the department of mechanical engineering, from which position he was in 1930 promoted to the position of dean.

In the field of engineering, Dean Fernald served as a consulting engineer and directed investigational work in the field of geology, mining, public utilities, and fuels. He received a number of government appointments as an authority on power questions and served in 1936 as a member of the Executive Committee for the Third World Power Conference. He was always interested in Maine and the University, and active in alumni affairs. He returned often to Maine during his vacations, and his sudden death will be deeply regretted both in technical circles and among his former friends in this vicinity.

### 1906

Frederick O. Stevens, Superintendent of the Weymouth Water Works, died at the age of 57 on April 8. His death was attributed to heart disease, as Mr. Stevens was found dead in his automobile in the garage at his home.

Mr. Stevens had been employed by the Water Works of the city of Weymouth for the past twenty years.

### 1925

Daniel L. Sullivan, of Orono, died suddenly at his home on April 24, at the age of 43. A native of Massachusetts, Mr. Sullivan was educated at a Boston business college and entered the University in 1921, graduating with a degree in Forestry. He was a charter member of Phi Kappa fraternity in which he was always deeply interested. He was employed for seven years in the office of J. W. Sewall of Old Town. For the past seven years Mr. Sullivan was employed by the Electrolux Company as salesman. He was active in the American Legion and in the Catholic church.

## BY CLASSES

### 1878

#### Next Reunion, June, 1938

Cecil C. Chamberlain is a lumber dealer in Enderlin, N. D.

C. Henry Benjamin, who is retired, lives at 1801 Hobon Rd., N. W., Washington, D. C.

C. F. Plumly, of Lincoln, Maine, is retired and lives in that town.

O. C. Webster was in St. Petersburg, Florida, for the winter.

### 1879

#### Next Reunion, June, 1938

Francis H. Clergue, of Montreal, Quebec, is president of the Universal Engineering Corporation with business located at 360 St. James, S. W., Montreal.

Wilbur F. Decker, retired, is receiving mail at R. #2, Excelsior, Minn.

Mark D. Libby, whose residence is 708 South Hoff Ave., El Reno, Oklahoma, is a lawyer in that city.

Charles A. Morse, retired chief engineer of Chicago Rock Island and Pacific R.R., lives at the Windermere Hotel in West Chicago, Illinois.

### 1881

#### Next Reunion, June, 1937

Lillian R. Andrews is in Callaway, Nebraska.

Harry W. Adams resides at 1928 So. Harvard Blvd., Los Angeles, Calif.

### 1882

#### Next Reunion, June, 1937

Joseph F. Gould, a lawyer in Bangor, has his residence at 42 W. Broadway in that city.

### 1883

#### Next Reunion, June, 1937

Jonathan V. Cilley, retired, lives at Jose Hernandez 1987, Buenos Aires, Argentina.

### 1884

#### Next Reunion, June, 1941

Edward S. Abbott, whose occupation is "Country Doctor," has his home in Bridgton, Maine.

Robert S. Leighton, a lens manufacturer, has business and residence address at 100 Winslow St., Everett, Mass.

### 1890

#### Next Reunion, June, 1940

Chandler C. Harvey has recently found

three of his poems published in "Maine and Vermont Poets," published by Henry Harrison, New York City. The poems are "Those Eyes of Brown," "Beneath the Pines," and "Riverside Cemetery."

### 1896

#### Next Reunion, June, 1938

The Alumni office has just received a copy of a fine booklet describing the immense Colorado River Aqueduct, of which Frank E. Weymouth is general manager and chief engineer.

### 1899

#### Next Reunion, June, 1937

Walter S. Higgins, of 36 Kenduskeag Ave., Bangor, is a lumber dealer for Morse and Co. of that city.

Mary Alden Hopkins is a writer and resides in Newtown, Conn.

Herman F. Noyes lives at 142 Longfellow St., Portland, Maine.

Henry J. Pretto, of Brighton, Mass., is an engineer with business address at 1415 Hyde Park Ave., Hyde Park, Mass.

M. M. Veazie gives his occupation as Insurance with office at 87 Kilby St., Boston. He resides at 42 Clark St. in Belmont.

### 1900

#### Next Reunion, June, 1937

John D. Mackay is a lawyer in Quincy, Mass.

Ernest C. Forbush is a project engineer with the WPA in Marion, Ill.

J. Arthur Hayes is superintendent of The Viscose Co. in Marcus Hook, Pa. His residence—Bridgewater Rd., Upland, Pa.

Clifford D. Holley is at the Windermere Hotel, Chicago, Ill.

Edwin J. Mann is a manufacturer in West Paris, Maine.

F. M. Rollins, superintendent of a sulphite mill of the Hollingsworth & Whitney Co., resides at 13 Benton Ave., Waterville, Maine.

### 1901

#### Next Reunion, June, 1937

C. W. Bartlett gives his address as 445 Penton Bldg., Cleveland, Ohio.

Richard H. Berry is in Pittsfield, Maine.

Thomas Buck is living at the Faculty Club in Berkeley, California.

Fred L. Martin, of 44 Wentworth St., Bridgeport, Conn., is with the New York Motor Lines, Inc., as vice president, motor bus transportation.

### 1902

#### Next Reunion, June, 1937

Frank P. Wilson has retired from the practice of law in New York City and is now living in the beautiful home he purchased last fall in Belfast, Maine.

Class Secretary, Arthur E. Silver, 360 North Fullerton Ave., Upper Montclair, N. J., advises that 1902 reunion plans are coming along well. The local committee working out arrangements comprises W. E. Barrows, A. C. Lyons, and Ralph Whittier. Communications coming in indicate that many are making their plans to return.

Henry C. French, owner of Meadow Brook Farm in Rumford Center, writes that he will be among the reunion delegation from Western Maine.

Henry Chadbourne, who has been an engineer with the General Electric Co. in Schenectady since graduation, will return in June.

A photograph of Harry E. Duren appears in a late issue of "Electrical World." He recently has been made

president of Western Massachusetts Power Co. with headquarters at Greenfield, Mass.

A. C. Lyon, associate professor of Civil Engineering, attended the meeting of the Flood Committee of the Boston Society of Civil Engineers in Boston, April 21. He also attended the evening meeting at which time papers were presented on weather predictions and flood control.

Miss Edith M. Bussell, of Old Town, was elected president of the local chapter of Alpha Omicron Pi at a recent meeting held at the home of the retiring president, Mrs. Frances W. Burke, of Bangor, with Mary Robinson '29 assisting hostess.

Orman Cimpher, formerly of Guilford, Maine, is now employed by the Boston Elevated Ry. and lives at 40 Woodside Ave., Medford, Mass.

#### 1904

##### Next Reunion, June, 1941

Charles H. Sampson, principal of Huntington School in Boston, recently wrote a paper "The Value of Mechanical Drawing in a College Preparatory Program."

#### 1905

##### Next Reunion, June, 1941

Alphonso Wood, who is in the steel design division of Stone and Webster, of Boston, requests that his mail be sent to his residence address, 116 Russett Rd., West Roxbury, Mass.

The March issue of *Railway Age* announced the promotion of John May to the position of General Sales Manager of the American Steel and Wire Co. with headquarters at Worcester, Mass.

Dealers for  
**Ford-Lincoln-Lincoln Zephyr**  
**WEBBER MOTOR CO.**  
Bangor, Maine

Member Federal Reserve Bank

Young men and women will always find this banking institution interested and helpful in their business progress. Responsibility is reflected by a checking account, which is also a factor in establishing credit and standing.

**The  
Merrill  
Trust Company**

With twelve offices in  
Eastern Maine

Member Federal Deposit Insurance Corp.

#### 1907

##### Next Reunion, June, 1940

Richard Talbot was re-elected a member of the board of directors of the Orono Golf Club at a recent meeting. In appreciation of his services rendered to the Club he received a pair of golf shoes, given him by his fellow members.

#### 1908

##### Next Reunion, June, 1940

The newly elected treasurer of the local chapter of Alpha Omicron Pi is Mrs. Alice F. Phillips, of Bangor. Election of officers was held recently in the city of Bangor.

Arthur E. Tremaine, for years manager of the Stone and Cooper Coal Co. of Augusta, is now vice president and general manager of the Doyle-Carter Co., Inc., fuel dealers of Brewer. Since coming to Brewer last August, the company has equipped the plant to take fuel by water and built sheds for the storage of coal and coke. More additions will be made this summer. Mr. Tremaine has a son, Richard, in the freshman class at the University.

#### 1909

##### Next Reunion, June, 1940

Harold A. Rich is an architect at Rm. 650, 141 Milk St., Boston. His residence 78 Adella Ave., West Newton, Mass.

Benjamin L. Potter, '09 special, is a salesman with New York Belting and Packing Co., with business in Cleveland, Ohio. He is receiving mail at 2740 Euclid Ave., Cleveland.

H. M. Woods, of Bar Harbor, is the Hancock County vice president of the Maine Livestock Breeders' Association, according to a press report of April 1.

Guy E. Torrey, of Bar Harbor, was married in New York City on March 30 to Mrs. Thomas Mackenzie Alexander, of that city. They sailed on the S. S. Aquitania for a wedding trip in Europe. Mr. and Mrs. Torrey will be at their new home, "Bowling Green," this summer.

#### 1910

##### Next Reunion, June, 1939

James I. Travis is with the Weston Elec. Inst. Corp. in Newark, N. J., but maintains residence at 228 Bradford Rd., Hillside, N. J.

Daniel R. Hodgdon, Ph.D., J.D., LL.D., is a lecturer on Education, School of Education at New York University. He is also an attorney at law in New York City. His business addresses are 21 West St., and N. Y. U. and residence 54 W. 40th St., of that city.

Frank E. Fortier, a real estate salesman, is living at 2100-12th St., So., St. Petersburg, Fla. His business is given as 109-4th St., So.

#### 1911

##### Next Reunion, June, 1939

Everett H. Maxcy, re-elected director of the Cumberland County Power & Light Co., was also re-elected clerk and secretary for the board. Mr. Maxcy lives in Augusta.

Mr. and Mrs. Clayton Maxwell, of Ware, Mass., formerly of Orono, were honored recently on the occasion of their twenty-fifth wedding anniversary, at a surprise party.

At the annual town meeting of Madison, Maine, R. R. Henderson was elected moderator.

Dean Harry L. Burden of Tufts College has written a paper "The Meaning of Mechanical Drawing to the Engineer."

#### 1912

##### Next Reunion, June, 1937

Roy E. Jones, extension poultry specialist at Connecticut State College, was the principal speaker on the poultry program arranged as a part of the University's thirty-first annual Farm and Home Week. The subject of his discussion was "Making Money from Poultry."

Mrs. Hazel Buzzell, of Milford, was chosen "member-at-large" of Alpha Omicron Pi at its recent meeting held in Bangor.

The secretary-treasurer of the Holstein-Friesian Breeder's association elected at a meeting of this organization on April 1 was Austin W. Jones, of Veazie.

George N. Worden is County Agent for Wenatchee County, Washington.

#### 1913

##### Next Reunion, June, 1938

Luther B. Rogers who has been engaged in field engineering in connection with the Pennsylvania Railroad electrification at Wilmington, Delaware, has been transferred back to the locomotive division of the General Electric Co., at Erie, Pa.

Raymond G. Foster, of 26 Wolcott St., Portland, is credit manager of the State St. Hospital of that city.

Richard T. Hunting, editor of the Hotel Management Magazine and connected with the Ahrens Publishing Co. of New York City, resides and receives mail at 24-16 29th St., Astoria, N. Y.

Arthur H. Cannon who is with the Carbide and Carbon Chemical Co. in West Virginia gives his occupation as power engineer. His home address is 334 Hawthorne Drive, Charleston, West Virginia.

The Camden and Rockland Water Company held its annual meeting recently in Rockland and Alan L. Bird was elected a member of the board of directors.

#### 1914

##### Next Reunion, June, 1939

President Arthur A. Hauck presented Harold J. Shaw, of Sanford, with a certificate during Farm and Home Week honoring him as an outstanding farmer. Mr. Shaw has held many offices in leading organizations for the advancement of agriculture in Maine and New England.

Ralph H. Boothby sends notice of change of address. He is now living at 118 Elgin St., Newton Centre, Mass.

Roland E. Stevens, principal of Lincoln Junior High School, has been named to teach for the fifth consecutive year at the summer session of the Washington State Normal School, Machias. Mr. Stevens will teach motivating junior high mathematics.

#### 1915

##### Next Reunion, June, 1938

David S. Baker, of Alfred, Maine, is senior foreman with the CCC on Road Construction.

Montford E. Patten, chief forester for Resettlement Administration, is also a partner in C. D. Merrifield & Co. of 23 Central St., Bangor. He maintains residence, however, at 286 South Main St., Brewer, Maine.

The March issue of *Electrical Engineering* announced the election of Harold H. Beverage as president of the Institute of Radio Engineers for the year 1937. Mr. Beverage is chief communications engineer for R. C. A. in New York City.

Albert L. Coyne, president of Mechanical Drawing Association of New England, presided over the meeting held at Tufts College, April 10, 1937. Mr. Coyne

has been appointed to teach Teachers' Training Course at Harvard next summer, under State University Extension.

Morris Horowich (law) has legally changed his name to Martin Harvey. Mr. Harvey is a registered pharmacist and is proprietor of the Martin Harvey Pharmacy, 361 Second Ave., Albany, N. Y.

Lloyd F. Pinkham is a sales representative for the National Cash Register Co. of Newark, N. J. Mr. Pinkham receives his mail at his residence, "Hillcrest," Franklin Turnpike, Hohokus, N. J.

#### 1917

##### Next Reunion, June, 1938

Linwood T. Pitman who is manager of the Radio Station WCSH, Congress Square Hotel, Portland, gives his mail and residence at 29 Runnells St., Portland, Maine.

R. B. Pierce, manager of oil refining for the Arkansas Fuel Oil Co at Shreveport, Louisiana, lives at 586 Unadilla St., of that city.

Arthur Blanchard, of Cumberland Center, was named Cumberland County vice president of the Maine Livestock Breeders' Association at a meeting of that organization held on the campus early in April. Mr. Blanchard was also elected treasurer of the Maine Jersey Breeders' association during Farm and Home Week.

#### 1918

##### Next Reunion, June, 1937

A. Mason Russell is a merchant in Rangeley, Maine.

Voyle E. Abbott is district manager of the Florida Motor Lines in Tampa. His address is 1805 Richardson Place.

Lloyd I. Edgerly is employed in the Lamp Dept. of the General Electric Co., 50 High St., Boston, Mass. His residence is at 14 Mountwood Rd., Swampscott.

Raymon N. Atherton is in the extension service of the University and is living at 35 Oak St., Orono, Maine.

Harry D. Watson, associate professor of mechanical engineering at the University, is chairman of the Commencement Committee for 1937.

Robert Rich, an attorney at law, has his business at 173 Main St., in Berlin. He and his wife, Ruth, live at 226 Prospect St., Berlin.

Clive C. Small gives his occupation as merchant in Derry, N. H. He is with the V. H. Moody Co. and lives at 85 E. Broadway in Derry.

#### 1919

##### Next Reunion, June, 1937

Alice C. Bridges, D. C., is a chiropractor in Lewiston. Dr. Bridges lives at 12 Davis Ave., in Auburn.

R. A. Harrington, of Oak Court, Convent Station, N. J., is sales manager for the New Jersey Bell Telephone Co. and is in the directory advertising division.

E. B. Kirk, resident claims manager for the Liberty Mutual Insurance Co. of Albany, N. Y., resides at 25 Oakwood St. in that city.

Norman D. Plummer is with the New York Telephone Co. His address is 65 Franklin St., Buffalo, N. Y.

Ralph A. Wilkins is general superintendent of Paper, Box and Carton Divisions of Bird & Son, Inc., at East Walpole, Mass. Residence—2 Park Lane of that city.

Orin F. Perry, Jr., a member of the firm Orin F. Perry & Son, Inc., dealers in wholesale building material, resides at 12 Clinton Ave., Dobbs Ferry, N. Y. His business address is 163 Exterior St., New York City.

Mr. and Mrs. L. E. Merrow reside at 115 No. Midland Ave., Nyack, N. Y. Mr. Merrow is assistant to the vice president of the Rockland Light and Power Co. of Nyack.

Paul E. Hodgdon is president and treasurer of the Deerfield Glassine Co. at Monroe Bridge, Mass.

#### 1920

##### Next Reunion, June, 1937

Verne C. Beverly, of Presque Isle, was elected vice president of the Presque Isle Rotary Club.

John H. Schoonmaker, district manager of the Socony-Vacuum Oil Co., Inc., is receiving mail at that company's address—Box 1149, Albany, N. Y.

Helen L. Johnson is secretary to the treasurer of Johns Manville Corporation at 22 E. 40th St., N. Y. C. She is living at 320 East 42nd St., of that city.

Dewey W. Couri is an automobile dealer in Portland. His business address is 531 Forest Ave. of that city and residence is 14 Elmwood Rd., Cape Elizabeth, Me.

S. M. Currier is a buyer for the Montgomery Ward Co. located at 75 Varick St., New York City. His residence, 143-17 38th Ave.

#### A Challenge

The indomitable, super-formidable, ultra-colossal, never-say-die class of 1920 hereby challenges the class of 1921 to a bag scrap, to be held on Alumni Field on Saturday, June 12, 1937, A.D., at 3:00 p.m. Biting and hair-pulling only excepted. May the best team (1920) win!

P.S. We understand that this challenge has been accepted. (signed) The Best Team.

#### 1921

##### Next Reunion, June, 1937

Miss Katherine D. Stewart, secretary to the Chief of Police of Bangor, Maine, spoke informally on the work of the police department at the Bangor Business and Professional Women's Club meeting on March 15.

H. Laton Jackson is district superintendent for the Central Maine Power Co. with business at 90 Main St., Norway, and residence at 77 Pine St., South Paris.

Clyde V. Vining is special agent for Hanover Fire Insurance Co. at 14 School St., Rockland. He is living at 55 Broad Street.

#### 1922

##### Next Reunion, June, 1941

Rhandena Armstrong is home economics extension representative for Bucks County, Pennsylvania. She gives her residence address as 63 W. Walnut Ave., Merchantville, N. J.

H. B. Atkinson, of 47 Riverside, Sidney, N. Y., is a highway engineer with the New York State Department of Public Works.

R. W. Clough is a salesman for the Rubberoid Co. with business and residence at 74 Blakely Road, Medford, Mass.

Stanton Glover is at 43 Park Ave., Narragatuck, Conn.

#### 1923

##### Next Reunion, June, 1941

What should a college education do for one? Judging from a careful perusal of

the questionnaire sent out last fall, many members of 1923 would like to see the University provide a solid foundation for further technical and professional training. Although we received a response to our questionnaire from less than half the class, over fifty per cent of those replying have gone on for further study, and a large number of these have received one or two degrees as evidence of that work. To be specific as well as interesting, we shall mention the classmates and the institution from which the advanced degree was taken.

Master of Arts from the University of Maine, Doris Twitchell Allen, Elizabeth Harkness, Iva Merchant Burgess, Harriet Weatherbee, Alfred Hempstead, Elizabeth Ring; Bryn Mawr College, Molly Perkins Crandon; Bates College, Clifton Hamm; Columbia University, Leonard Lord, Edwin Kneeland, Annie McPhee,

*The*  
**UNIVERSITY STORE CO.**

Frankie Webster, Rowene Hersey (B.S. in Library Service); Hartford Theological, Mabel Peabody Wilson; University of Chicago, Robert Calderwood; Radcliffe, Catherine Cary Moses; New York University, Mildred Lombard Welch.

Master of Science from the University of Maine, Alexander Cutler, Wilbur E. Merserve, Edgar Linekin; University of Illinois, Stanley Hall; University of Syracuse, Percy Johnson; Harvard, Clyde McKeeman.

Master of Forestry, Yale, Adolph Bisson.

Master of Education, Boston University, Leland March.

Doctor of Philosophy, Johns Hopkins, Percy Johnson; Cornell University, Wil-

bur E. Merserve; Iowa State College, Edgar Linekin; University of Michigan, Doris Twitchell Allen; New York University, Mildred Lombard Welch; Boston University, Roy Fernald.

Foreign study, University of Berlin, Doris Twitchell Allen; University of Bonn, Molly Perkins Crandon, both for one year, while Catherine Cary Moses and Elizabeth Ring had a short summer course of lectures at Oxford, and doubtless there have been others of this sort. The most degreed member of our class is Senator Roy Fernald who has nine, headed by a Ph.D. here recorded. Roy has been too busy working on the budget of the state to give us the details of his academic work.

Other degrees held by members are as follows: Cecil R. Jones, C.E., University of Maine; Donald Alexander, E.E., University of Maine; Harold F. Lockwood, LL.B., Boston University; John L. Seymore, LL.B., George Washington.

Three members of the class are practicing physicians, Oscar Simpson, who trained at Harvard, Velma Wallace Clement-at Woman's Medical College, and Oscar Norrell at George Washington University. We also have three B.D.'s, Arthur Wilson, Hartford Theological Seminary, Robert Calderwood, Garrett Biblical Institute, and Alfred Hempstead, Bangor Theological Seminary.

Then there are a number of us who have done resident work for our degree at other institutions who for some reason have not completed the work. Nor does the above list name all in the class who have degrees. It represents only our best efforts in compiling.

At a recent meeting of the Maine Association of Engineers in Portland, Henry Doten was re-elected to the Board of Directors.

Sarah Wiswell Fenderson and Henry are back in Cambridge after a few years residence in Chicago, Illinois. For some time Henry has been associated with Lever Brothers Company as Quality Control Chemist.

An attractive booklet has just come from Eleanor Posser Dow and husband, announcing the opening of their summer camp for children under twelve. The camp is located at Edgcomb, Maine, near Wiscasset and is the beginning of a camp they hope to increase in size in another year. Both Eleanor and her husband are experienced in camp life, having been associated for a number of years with the Keewaydin camps. A feature of the camp is the teaching of French.

Elizabeth Ring

## 1924

### Next Reunion, June, 1941

Arthur O. Willey, of Cleveland, Ohio, has been secretary of the Society of Automotive Engineers of Cleveland for three years. Mr. and Mrs. Willey announce the arrival of Patricia Joanne, born on March 22, weighing 6 lbs. 7 oz. Their home is now located at 3285 DeSota Ave., Cleveland Heights.

Harrison L. Richardson, poultry specialist at the University, is the author of a bulletin "Coccidiosis of Chickens" published by the Maine Agricultural Extension Service in March.

George H. Webb, of 7 Willow St., Lynn, Mass., is claims manager of the Liberty Mutual Ins. Co., of that city. Mr. Webb lives in Swampscott, however, at 1012 State Road.

Arthur F. Eastman, who is in the estimating department of the Bethlehem Shipbuilding Corp., of Quincy, Mass., requests that his mail be sent to his residence address, 316 Beale St., Wollaston, Mass.

## 1926

### Next Reunion, June, 1940

Charles Sidney Collins is employed as color chemist at the Waterfalls Paper Mills. His residence is 31 Water St., Mechanic Falls, Maine.

A bulletin "Junior and Senior Cooking and Housekeeping Project" written by Leone M. Dakin, Extension Foods Specialist, U. of M., was issued by the Extension Service in January.

Alfred W. Hanmer, Jr., is sales manager for General Plastics, Inc., at North Tonawanda, N. Y. He is living at 70 Highland Ave., Buffalo, N. Y.

Marjorie Johnson is teaching English at Deering High School in Portland, Me. Her address, 73 Lawn Ave., Portland.

Beulah O. Wells  
2 Middle St.  
Orono, Maine

## 1928

### Next Reunion, June, 1940

Dear Classmates,

I certainly appreciate all the "newsy" letters I have received lately and thank each of you.

William Balch is a test supervisor, Room 463, South Station, Boston, Mass. His residence address is 302 Main St., Stoneham, Mass.

Erdine Besse Dolloff was elected president of the Chi Omega Alumnae Club at a recent meeting.

Horace Bell, our class treasurer, is in the variety store business with his brother-in-law. They own the "Down East 5 and 10" in Machias, which Horace is now managing, and have recently purchased a second store in Pittsfield, Maine. Horace is also Town Treasurer of Machias, chairman of the membership committee of the Chamber of Commerce, and also treasurer of the Center St. Congregational Church. Last September, he was elected to the Board of Directors of Phi Mu Delta,

after having served as National Educational Adviser for eight years. He is also president of the Washington County U. of M. Alumni Association. (Horace, it doesn't do to hide your accomplishments, for the news just will get out!)

Donald Huot has been employed since graduation by the N. Y. Telephone Co., in various capacities. At present he is an equipment engineer at 210 W 18th St., New York City (Incidentally, he says he is still working on his first million!) Donald has been married five years and has a son and a daughter. The Huot's are living at 920 Carleton Blvd, Annadale, Staten Island, N. Y.

Raymond Blodgett is a poultry farmer at Bowdoinham, Maine.

Rev Fred Thompson, who recently became pastor of the Congregational Church at Easthampton, Mass., is reported to have a very enthusiastic following and also said to be delivering some very sincere and inspiring sermons.

Dr. Carroll Johnson is an orthopedic surgeon in Worcester, Mass. His business address is 36 Pleasant St. and his residence is 46 H. Elm St., both in Worcester.

David H. Stevens, town agent in Guilford, for the past two years, has been elected town agent of Milo.

Elmer H. Ward, formerly district superintendent for Montgomery Ward Co. in Kansas City, Missouri, has been transferred to Oklahoma City, Oklahoma.

Fred ("Ducky") Moulton works for Davies, Rose & Co., Ltd., manufacturing chemists, in Boston as a detail man. His work takes him more or less over New England, calling on doctors. Fred and Betty (Brown '29) have a daughter, Katherine Alice, who is two and a half years old. They reside at 391 Central St., Saugus, Mass.

Izora Hutchinson has finally been located again. She is now Mrs. Paris de Menendez and her address is Rua Itabaina, 13 Grajhu, Rio de Janeiro, Brazil, S. A. She formerly lived in Asuncion, Paraguay, S. A. Izora's husband is a doctor and is working for the government as a bacteriologist and immunologist.

Neale J. Hubbard was married last September to Miss Pauline Andrews of Lynn, Mass. Neale is in the automobile business with his father in Beverly, Mass.

Barbara Pierce Skofield  
52 Harlow St.  
Brewer, Maine

## 1929

### Next Reunion, June, 1939

Dear Classmates,

I have just received news from an A. O. P. round robin letter so will pass some of it on to you. "Holly" Hawkes writes from 11 Linnaean St., Cambridge, Mass., that she is still doing clerical work for the Recording and Statistical Corp. Sibyl Leach is teaching in the high school at Westerly, R. I. Esther Hawkes Brake is in New London where her husband plans "to hang out his shingle" for osteopathy. Eddie Bartlett Beckler is living in Chatham, N. Y., where Phil is selling insurance for the Equitable Life Assurance Society. Phyllis Anne, 4½ years, and Edward, 2 years, comprise their family. Ethel Cummings Woodbury is in Weehawken, N. J., where her husband is superintendent of schools. She has a boy, Kyle, nearly 8, and Patricia Ann who is but four months old. Jessie Ashworth writes from New Wilmington, Penn., where she is teaching American History, Sociology, and International Politics.

Why don't some of the other fraternity

groups start such a letter and then share it with the rest of the class through this column?

John Ames is service engineer in Diesel & Steam Equipment for the Westinghouse Electric Mfg. Co., in Boston. His residence is at 80 West St., New London, Conn.

The sympathy of our entire class goes out to Jackson, Miss., to Vic and Dorothy McNaughton in the death of their son, Victor, Jr.

Dr. Allison "Hilly" Hill has opened his office at 77 Central St., Bangor, and is living at 295 French St., Bangor.

Burleigh Hutchins is chief engineer with the Rust Engineering Co., at Crossett, Arkansas.

Arlene Palmer is now bookkeeper for the U. S. Coast Guard in Washington, D. C., her residence is 2127 P. St., N. W., of that city. After leaving our class, Arlene entered George Washington University, graduating in 1929.

Among the names of the speakers for Farm and Home Week at the University was Hortense Bradbury. Hortense is Home Demonstration Agent in Washington County.

Alice W. Sinclair  
Pittsfield, Maine

## 1930

### Next Reunion, June, 1939

Your secretary hasn't received word from your treasurer yet concerning responses to the recent class pamphlet or letter but she hopes they were early and numerous—because if they were, your president, treasurer and secretary will know you liked it. "Hen" did a neat piece of work, didn't he, with the shaping up and issuing of it?

Our first news this month has to do with the engagement of Miss Aline Campbell to Don Newman, Phi Mu Delta. Aline is teaching in Millinocket, the Stearns High School, I believe. They will be married sometime this summer.

"Tom" Harvey, M.D., who has been practicing in Easton the last year and a

half, recently changed his residence. He is carrying on the practice of Dr. Hogan, Mars Hill physician, who has left to take up special courses in medicine. Tom is a graduate of Cornell Medical and interned at Hartford General Hospital.

John MacCaffrey is assistant purchasing agent for the Palomar, Vermont, at 2nd & 3rd, Los Angeles, California. He is living, however, at 662 North Lafayette Park Place, Los Angeles.

Bill Daley writes that Jack Moran was in Portland to cover the New England Basketball Tournament in March for the Bangor News. Jack had just come on from Augusta, where he was "on the job" concerning the trend of affairs in the Legislature. To quote, "He was not writing the running story of events as they occurred in Augusta, but was more particularly interested in how matters were shaping up before the actual meetings—high lights of the various debates,

etc." Bill also saw Linwood "Jake" Brofee '31 at the tournament. This is Jake's sixth year as submaster at Gorham High. He has had a very successful basketball record—his team having been called to the Gorham Normal Tournament each of the six years. They have also won the Triple C. championship for the Triple C. League High Schools four times.

Jeanette "Ginny" Roney is teaching Civics in Willimantic, Conn., and is living at 114 High St.

V. C. Sylvester is employed as a private chauffeur in Dorchester, Mass., and is living at 38 Tonawanda St., Dorchester.

Mr. and Mrs. Albion V. Osier (Helen MacLaughlin) had a young son, Stephen Albion, born to them on April 7.

Lastly, your secretary is adding another name to the "Polly Hall." May 8th is "the date," when I shall be marrying Dr. Elfred L. Leech, of Oneonta, N. Y. He is assistant physician and surgeon at Homer Folks Tuberculosis Hospital, one of the three large institutions recently built by N. Y. state. He was Bowdoin

'29 and Johns Hopkins Medical '33, serving resident internships at Johns Hopkins and Cooperstown, N. Y. We went to school together 'way back in the grades.

#### Next Reunion, June, 1939

Dear Classmates,

Business seems to be picking up this month. At least I seem to have a few more news items.

Bee Brown is living at 5509 9th St. N.W., Washington, D. C. She has a clerical position in the U. S. Govt. Bureau of Engineering and Printing.

Warren Blocklinger has been transferred to the W. T. Grant store in Beverly, Mass.

Scott Gordon is representative, incandescent lamp department, General Electric Co., New England Division, Boston. He gives 89 Clinton St., Portland, for his residence address; so I wonder if you're commuting, Scott?

Charlie Austin, an ex-'31, has been appointed associate general agent with the State Mutual Life Assurance Co. here in Portland. After leaving Maine, Charlie went to the University of Michigan, then came back to Portland in 1934. At present he is living at 92 Cotton Street, Westbrook.

Saw this word of praise for Sam Sezak in the paper, "So well did they like Sam Sezak at Fairhaven (Mass.) that he is under contract for the next two years at a substantial increase in salary. Sam had remarkable success at coaching during his first season there. Remarkable is a word which always seems to apply to his work in that line." Good work, Sam, when do we get an exhibition of these teams in action?

*More news, please.*

Mary Stiles  
110 Revere Street  
Portland, Maine  
1932

#### Next Reunion, June, 1939

Dear '32ers,

Geraldine Chase is teaching school in Providence. Her address is 405 Angell St., Gordon School, Providence, R. I.

Alden Denaco has been promoted to collection manager and credit man with the Commercial Investment Trust in the Buffalo, N. Y., office.

The marriage of Clayton Hardison and Miss Florence M. Winter, of Chelsea, took place on March 6, 1937. Gordon Hayes '32 was best man. Mrs. Hardison is a graduate of Farmington Normal School (1934) and has taught in the West Gardiner school. Clayton is a junior hydraulic engineer for the U. S. Geological Survey in Mankato, Kansas.

Their address is Apt. B-3, Mankato Apartments, Mankato, Kansas.

Maynard A. Hincks has been transferred to the Analysis and Review Board of the H. O. L. C. in the regional office in Boston.

Peter Kuntz is employed in the Equipment Division of the American Can Co. of New York. Address—3250-93rd St., Jackson Heights, N. Y.

Stacy R. Miller was co-author of the Bulletin "A New Method of Buying Sweet Corn for Canning" issued by the University Extension Service in February.

Frank E. Patten, Jr., is a surveyman in the Security Mutual Bldg., U. S. Engineers, Binghamton, N. Y.

Mr. and Mrs. Ralph N. Prince, of Castleton-on-Hudson, N. Y., are receiving congratulations on the birth of a daughter, Gayle Edith, born March 7 at Albany, N. Y.

Mr. and Mrs. Horace Croxford (Isabelle Robinson), of Old Town, Maine, announce the birth of a daughter, Elizabeth Ann, born February 15, 1937.

Major and Mrs. Hugh Wear (Lydia Wear) are living at 143-98th St., Brooklyn, N. Y. Major Wear is stationed at Fort Hamilton, N. Y.

Helen S. Hincks  
Apt. 25  
349 B. Pleasant St.  
Malden, Mass.

#### 1933

#### Next Reunion, June, 1938

Dear Classmates,

All you folks must be on a sit down strike this month—news is very, very scarce. Helen Beasley Ochs '31 is expecting a call from "B" Cummings this next week and Helen has agreed to "let me in" with paper and pencil to take notes on, at least, one session. However, you will have to live in anticipation for that.

Maynard Quimby writes that he is an instructor in Botany at Cornell University at Ithaca, N. Y. At the same time he is working toward a Ph.D. degree, having received his M.S. from Cornell in June, 1934. Maynard is married and he and his wife are living at 307 Dryden Rd., Ithaca, N. Y.

Franklin Neal is assistant in the Optical and Projection Laboratory of the Corning Glass Works, Corning, N. Y. His address is 71 E 2nd St., Corning, N. Y.

"Marg" Lovely is Associate County Supervisor in the Resettlement Administration in Amherst, Mass. Her residence is 22 Sunset Ave., Amherst, Mass.

Allan Hamilton is a research chemist for the S. D. Warren Co. Paper Manufacturers, in Portland, Maine. He is living at 65 Monument Street, Portland, Me.

Sherwin Stanley is at present unemployed and living at 194 Park Ave., Portland, Maine.

If I had been at home last Wednesday instead of out "gadding," I would not have missed seeing Jeanette Roney and Ernestine Moore when they called. They are both teaching at Willimantic at the Windham High School. Their addresses are 114 High St. and 283 Prospect St., respectively. I shall have to get over to see them some afternoon.

Sorry this has to be so brief this time—but, I fear to let my imagination put my thoughts in print without having a single tangible clue to cling to.

A big "Hello" to all of you from  
Tom and Marnie Baldwin  
275 Broadway  
Norwich, Conn.

Reginald Cratty '25 Manager

As they  
**THINK**  
you are

As you  
**REALLY**  
are

Advertisers are funny folks;

They look at people in bunches and draw some amazingly inaccurate conclusions. They seem to think that a yachtsman goes to his office in blue coat and white trousers, that a horseman wears spurs to keep his feet from rolling off his desk. Here's what they think about college graduates:

They think all your daytime hours are spent yelling at football games.

Never do you buy an automobile.

We've got to change that notion.

Are you going to buy a car this year?

If so, please tell us,

They think you spend your evening hours at class reunions.

You wouldn't think of buying an electric refrigerator.

Or would you? Please tell us.

They think you spend your vacations at Commencement get-togethers.

You're not one of the people who go abroad.

Or are you?

If so, please tell us.

*It comes down to this:—*

This magazine is a good advertising medium but it is hard to convince the advertiser of it. We are in competition with the big national magazines that spend hundreds of thousands of dollars a year on market investigations and research. The big fellows prove what they've got. We little fellows must prove it too. The most convincing proof is definite statements from our readers as to their intended purchases this year.

We hate to be a nuisance. We realize fully that requests for information of this sort are distasteful but we are most anxious to get advertising. All advertising revenue is plowed back to improve the magazine and thus redound to the prestige of our college.

We appeal to your loyalty to fill out the adjoining prepaid questionnaire and send it to us today.

### Next Reunion, June, 1938

Class of 1934 Personals failed to come through this month. Next month's issue will have twice as much.—The Editor.

## 1935

### Next Reunion, June, 1938

Hello, Everybody,  
I can't "hold out" a moment longer—Lee Blackington has gone and done it. And imagine keeping it a secret since last September fifth—You know Lee always was able to go around with that far-away look in her eyes but I used to put the blame on the fact that she was a Psych major! Of course, Lee, you know we all send our very best to Mr. and Mrs. Robert Nivison, Jr.

And good news comes in pairs as well as to roomies—Dot Sawyer's engagement to Alfred MacMichael has been announced. Dot is to be married in June. Ken Kimball sent me a line the other day telling about his new position. You know Ken was a chemist and research engineer for the Maine Seaboard Paper Co. of Bucksport and now he has joined the engineering staff of the Improved Paper Machinery Corporation at Nashua, N. H. Ken and Mrs. Kimball plan to live in Nashua.

A few more of our classmates have appeared on the horizon or I should say within my "snoop-and-peep" range—

Neil Calderwood is in San Francisco, California, as civil engineer for the Pacific Telephone and Telegraph Co. Do you really believe that is "the thing" to do, Neil—"Go West, Young Man"? Why is it that someone won't apply some maxim to the females in the world besides "Stay at Home, Little Girl"! But that's the point. Neil is living at 531 Cowper St., Palo Alto, California.

Janet Brown is librarian in Rochester, N. Y. Jan is living at 515 Washington St., Rochester. How does it compare with Maine, Jan?

Right across the water, Art Sherry and Paul Corban are living at 1116 Anna St., Elizabeth, N. J. (Apt. 1C). Art is the dye chemist in the color division of the Egyptian Lacquer Manufacturing Company; Paul is foreman in charge of the paint and varnish division.

And now back to Maine—Ella Rowe is employed as a technician at the Roscoe B. Jackson Memorial Laboratory at Bar Harbor. Dick Barstow is now town agent in Guilford, Maine. Dick's efficiency as assistant city engineer led to his new appointment.

In Ogunquit, Maine, Vernon Packard is employed as State Sanitary Engineer of the first district. Charles Brountas is manager of a candy store in Bangor where he is living.

The General Electric Company in Pittsfield, Mass., has another good '35er among its employees. Henry Gallison is a draftsman with this company.

In spite of the contagious character of "sit-downers" Marion Martin certainly hasn't stopped even for breath in her political advancement. The April issue of *The Woman Republican*, a magazine printed in New York, carried a message from Marion, who is a member of the State Senate and also National Committeewoman on the Republican National Committee.

Warren Flagg is in Fort Shafter, Hawaii, where he will be for at least two and a half years. Warren attended the Army

Finance School in Washington, D. C., shortly after he left Maine.

Bill Halpine will complete his course in Business Administration next month at Dartmouth. I was talking with Bill a while ago and I don't think he will ever transfer his allegiance from blue and white to green and white.

Time marches on! Just think—only two more issues of *The Alumnus* before vacation. I'd love to hear from you all before the year is over.

So long till May—

Ag Crowley  
59 Western Ave.  
Biddeford, Maine

## 1936

### Next Reunion, June, 1938

Dear '36ers:

We can thank our class president the honorable John Sealey, Jr., for our news this month, and believe me I do.

Gene Wakely is in the painting business in Topsham, Mass. (or did you mean Maine, John?) Why I ask is that he goes right on to say that Eleanor Merriam another Topshamite (and I know she's from Maine) is in the Social Welfare work in Augusta. Louise Hinman is also in this work. She plans to be married in June.

Bruno Golobski is at 3 Kellihan St., Lawrence, Mass.

George Frame has reported to John from Des Moines, Iowa, that Traveler's Insurance have placed him in charge of all collective correspondence in that territory. He even has a dictaphone! Nice work, George!

Francis McAlary is in Springfield, Missouri, c/o Springfield Water Co. That is quite a jump from Saco, Maine, Mac. How do you like it?

"Red" Currie is in Aroostook working for the State Dept. of Agriculture as an inspector. He is married and a father. Congratulations!

Lin Keller and Red Hill are at Harvard Business School.

Lee Halle is in Skowhegan in the textile business.

Dave White is in the accounting department, Central Maine Power Co., Augusta. Jim Boardman is in the drafting department of the same company.

James Norwood, who has been teaching for the last year in Franklin, has accepted a position as principal of the Junior High School in Southwest Harbor, Maine.

Tom Somers is assistant manager of the James V. Somers Co., Inc. (Retail Package Store) at 21 Hancock St., Gloucester, Mass. His residence is 8-K Commonwealth Ave., Gloucester.

Darrell Currie is in the claims department of the Liberty Mutual Insurance Co., at Lawrence, Mass. His address of residence is 217 Haverhill St., Lawrence.

George Clarke has been transferred to the Jersey City, N. J., store of the W. T. Grant Co. He is living at 96 Mercer St., in that city.

Carolyn Currier was elected secretary of the Bangor chapter of Alpha Omicron Pi sorority.

And now an event which was very important to me—this took place August 1, 1936, in Portland. To ease suspense, please note change of name and address below.

Phyl Hamilton Webster  
320 Court St.  
Auburn, Maine

**GRADUATES' MEMORY CONTEST**

(Answers to the quiz on Page II. of front advertising section)

1. Every ten years.
2. The names of the first two letters of the Greek alphabet (alpha and beta).
3. Palmolive Soap.
4. Both are derived from the Latin "caesar".
5. In southern Africa.
6. Both mean left or left-handed (a) French, (b) Latin.
7. Ninety-six.
8. Fatima Cigarettes.
9. Sherlock Holmes.
10. Chronos.
11. Mardi Gras.
12. Rome.
13. The French code as revised by Napoleon.

## —that's Air Conditioning

Think of it in terms of business—or think of it as happier living—it's here and none of us can afford to ignore it

THE orderly revolution which the world knows as air conditioning is your affair. It is destined to affect your daily life, your health and—whether you will or not—your pocketbook.

Air Conditioning, as General Motors sees it, is a year 'round matter.

Automatic Heating is part of it—but only a beginning. Automatic Cooling is part of it—but not the end

For true air conditioning—Delco-Frigidaire Conditioning—means heating in winter, cooling in summer—and fresh, filtered air—containing just the right amount of moisture—365 days a year.

Get the whole story about year 'round air conditioning in all its aspects.

See your local Delco-Frigidaire dealer or write to Delco-Frigidaire Conditioning Division, General Motors Sales Corp., Dayton, O.

### DELCO-FRIGIDAIRE

Automatic Heating, Cooling and Conditioning Equipment for every purpose

**DELCO OIL BURNER.** Equipped with Thin-Mix Fuel Control.

**DELCO AUTOMATIC FURNACE** (oil or gas). For steam, hot water or vapor systems.

**DELCO CONDITIONAIR** (oil or gas). For forced warm air systems. It air conditions as it heats.

**FRIGIDAIRE ELECTRIC ROOM COOLERS.** Low in cost, high in efficiency. Can be used to cool a single room or a group of rooms.

**FRIGIDAIRE CONTROLLED-COST AIR CONDITIONING.** For businesses and household installations.

**DELCO WATER HEATER** (oil or gas) . . . practical, economical, automatic.

### IT PAYS TO TALK TO DELCO-FRIGIDAIRE

**AUTOMATIC HEATING, COOLING  
AND CONDITIONING OF AIR**

MATERIAL success depends not only upon acquiring but also upon holding what you gain. Your economic welfare is constantly threatened by fire, wind-storm, explosion, accident, theft and other hazards that are unpredictable and, to a great extent, beyond your control.

Modern property insurance is extremely flexible . . . with policies available against practically every hazard known to man. As you acquire, insure and be sure.

Protect what you have with North America Policies. This oldest American fire and marine insurance company (founded in 1792) enjoys an enviable reputation for financial stability and prompt and equitable settlement of claims.

## HE WAS HEADING FOR "HOME SWEET HOME" WHEN -BANG! A BLOW-OUT!

**T**RAFFIC was heavy that blistering hot Summer afternoon as Mr. E. P. Keenan of Chicago, returning from a business trip, sped along Waukegan Road. His passenger, a fellow salesman, did most of the talking. Mr. Keenan was too busy keeping one eye glued on the oncoming traffic in the other lane.

"We're making pretty good time," Keenan's pal said. He couldn't reach "Home Sweet Home" quickly enough.

### A Close Shave

Bang! Like a thunderbolt the staccato crack of a blow-out rose above the roar of the motor. The fateful screech of tires skidding over the road froze Keenan to the wheel. Another car from behind swerved and barely missed him.

In desperation Mr. Keenan gave the steering wheel one final, frenzied tug. The car bolted—swung to the right just in time to miss a moving van by inches—and came to a stop at the brink of a deep ditch.

They were safe—yes. But after that close call no wonder Mr. E. P. Keenan will tell you that he now "believes in miracles."

The sad part of it, though, is that all motorists are not as lucky as Mr. Keenan. Because I understand that thousands are killed or injured in blow-out accidents every year.

Read **TED HUSING'S** vivid account of the terror-crowded moments experienced by the Chicago motorist who now "Believes in Miracles"

It took Goodrich engineers to fight this driving hazard for American motorists and provide them with a real defense against treacherous high-speed blow-outs. They invented the now famous Life-Saver Golden Ply which is found only in Goodrich Silvertown Tires. This remarkable Golden Ply is a layer of special rubber and full-floating cords, scientifically treated to resist internal tire heat. By resisting this heat, I am told, the Golden Ply keeps rubber and fabric from separating—keeps blisters from forming. Thus the dangerous blow-out that might have been, never gets a start.

### Are Your Tires Safe?

You can bet your bottom dollar that Mr. E. P. Keenan, of Chicago, is now riding on Silvertowns. Because for safer motoring he's convinced that there are no safer tires than Goodrich Golden Ply Silvertowns. My advice to every motorist who has his own and his

family's safety at heart is to see these life-saving tires at any Goodrich Silvertown Store or Goodrich dealer. *The sooner the safer.* You pay no price premium for these super-quality tires.

# Goodrich SAFETY Silvertown

With Life-Saver Golden Ply Blow-Out Protection

# NEW "SUPER-DUTY" FRIGIDAIRE WITH THE METER-MISER

## Saves Amazingly on Food and Operating Cost!

PROOF 1

**Ends "Cube-Struggle" and "Ice-Famine!"** At last, the refrigerator that instantly releases all ice-trays—and all cubes from every tray, with the New **INSTANT CUBE-RELEASE!** Also freezes more pounds of ice—faster... stores 100% more ice-cubes ready for use! Most complete **ICE SERVICE** ever known.

PROOF 2

**New 9-Way Adjustable Interior!** Good-bye to old-fashioned crowding and dish-juggling. Now you get maximum shelf space up in front. And Full-Width Sliding Shelves, Cold-Storage Tray, new Super-Duty Hydrators, ALL adjust like magic to suit any size or shape of food! Most complete **STORAGE SERVICE** ever known.

PROOF 3

**Keeps Food Safer, Fresher, Longer!** Safety-Zone Cold in food compartment—proved by new Food-Safety Indicator with Dial on the Door, always in sight. Plus **MOIST** Cold for vegetables... **EXTRA** Cold for meats... **FREEZING** Cold for ice cream and frozen desserts. Most complete **PROTECTION SERVICE** ever known.

PROOF 4

**Five-Year Protection Plan**, backed by General Motors, on Frigidaire's sealed-in mechanical unit. This, together with Frigidaire's Sealed Steel Cabinet, Special Sealed Insulation, and Lifetime Porcelain or Durable Dulux exterior, all adds up to the most complete **DEPEND-ABILITY** ever known.

### ONLY FRIGIDAIRE HAS IT!

Instantly releases ice-cubes from tray, two or a dozen, as you need them. Yields 20% more ice by ending faucet meltage waste. See **PROOF** of its quick, easy action at your Frigidaire dealer's.

• It's a landslide for the "Super-Duty" Frigidaire! Because women have seen **PROOF** that it's more than just a new refrigerator—it's a Complete New Service in Home Refrigeration!

For example, take the New 9-Way Adjustable Interior. It's not just a place to jam full the old helter-skelter way, but an amazing invention for properly storing all foods—making room for odd shapes and sizes as never before. It brings the most complete **STORAGE-ABILITY** ever known!

And so on through ALL 5 BASIC SERVICES. In every one, the "Super-Duty" Frigidaire with the Meter-Miser brings completeness never known before. Don't be satisfied with less. And don't buy on mere claims. Demand **PROOF**. You'll get it at your nearest Frigidaire Dealer's **PROOF-DEMONSTRATION**. See this before you buy any refrigerator... and save money, avoid disappointment.

FRIGIDAIRE DIVISION  
General Motors Sales Corporation • Dayton, Ohio

FRIGIDAIRE... MADE ONLY BY GENERAL MOTORS

PROOF 5

Meter-Miser does Super-Duty at amazing saving, for it's the simplest refrigerating mechanism ever built... Only 3 moving parts, including the motor... permanently oiled, completely sealed against moisture and dirt. You see its lower operating cost proved by an electric meter before you buy!
